## Value-Based Purchasing Strategy Members Standing Committee Meeting

---

**June 29, 2012**

# Health Homes Updates

- 108 practices will be accepted as Health Home practices this week!
- Combined with the 26 current Patient Centered Medical Home (PCMH) practices, this means we will have 134 Health Home practices in the state— almost 1/3 of all MaineCare’s primary care practices!
- 50 of the 108 practices that applied have been selected to join the current 26 practices under Maine’s multi-payer PCMH Pilot. This means that 76 of the 134 Health Home practices will also get support from Medicare, Anthem, Aetna and Harvard Pilgrim in order to provide a medical home for all patients at the practice.

# Updated Health Homes Timeline
