

### **Consent Decree Performance and Quality Improvement Standards: April 2012**

The attached compliance and performance standards are primarily for use in monitoring, evaluation and quality assurance of the areas covered by the Consent Decree pertaining to the community mental health system. The standards are intended to offer the parties and the court master a means of measuring system function and improvement over time and the Department's work towards compliance. If the percentage is within .5% of standard, the standard is considered met.

Starting fiscal year 2012, quarter 3, standard 5.2, 5.3 and 5.4 will now be calculated by APS Healthcare. Standard 5.1 will be calculated by APS Healthcare and reported on the next quarterly report, FY 12 Q4.

All standards utilizing RDS/enrollment data, inclusive of unmet need data, are reported one quarter behind (for example, reporting 3<sup>rd</sup> quarter data in the 4<sup>th</sup> quarter).

Reporting includes, where pertinent, discussion of the data and recommendations.

**Definitions:**

Standard Title:            What the standard is intending to measure.

Measure Method:        How the standard is being measured.

Current Level:            The most recent data available for the Standard.

Performance Standard: Standard set as a component of the Department's approved Adult Mental Health Services Plan dated October 13, 2006.

Compliance Standard: Standard set as a component of the Department's approved standards for defining substantial compliance approved October 29, 2007.

**Calendar and Fiscal Year Definitions:**

**Standard 2 - Grievances are addressed in a timely manner**

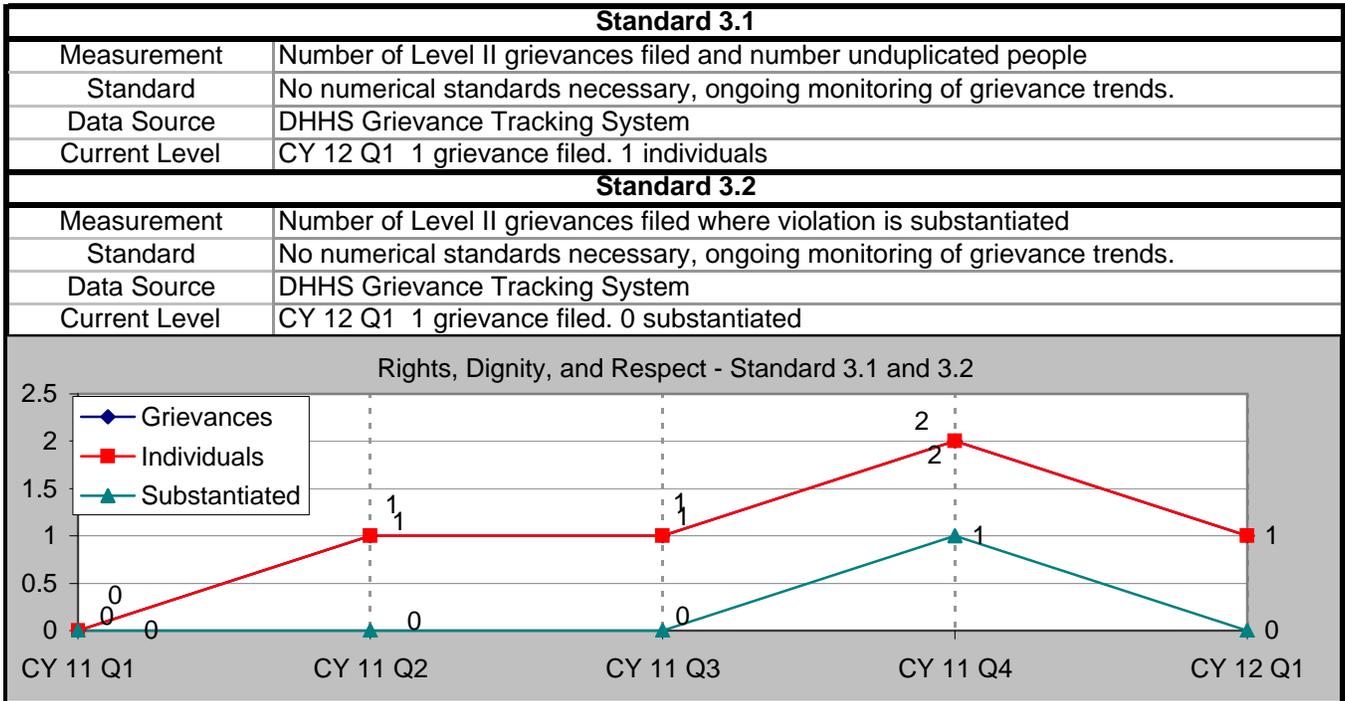

**Discussion:**

Standard 2: Met from calendar year 2006 thru the 4th quarter of calendar year 2011, except for Q4 CY 10 - in that quarter, one of two grievances was not responded to within the prescribed timeframe.

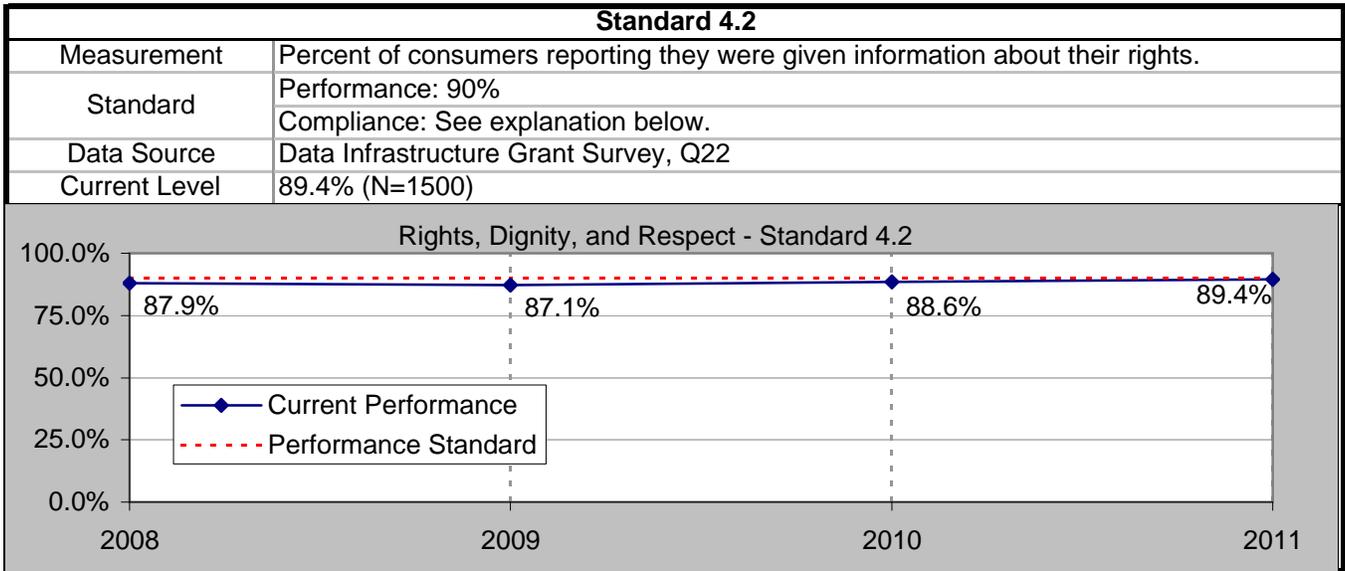

**Rights, Dignity, and Respect**

**Standard 3 - Demonstrate rights are respected and maintained**

**Rights, Dignity, and Respect**

**Standard 4 - Class Members are informed of their rights**

\* Compliance standard for 4.2

If results fall below the performance standard level, the Department:

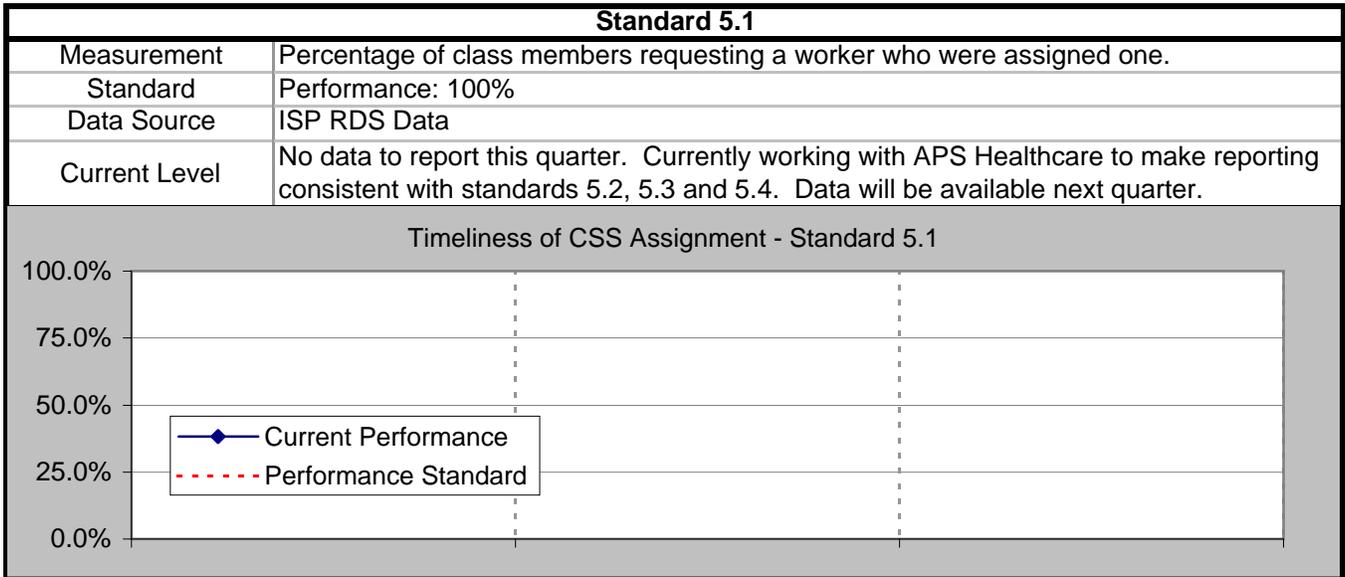

- Consults with the Consumer Council of Maine (CCSM)
- Takes corrective action if deemed necessary by the CCSM and
- Develops that corrective action in collaboration with the CCSM

**Discussion:**

Percentage has increased from 87.9% to 89.4% over the past 4 calendar years. Data from the 2011 DIG survey were shared with the CCSM in November 2011.

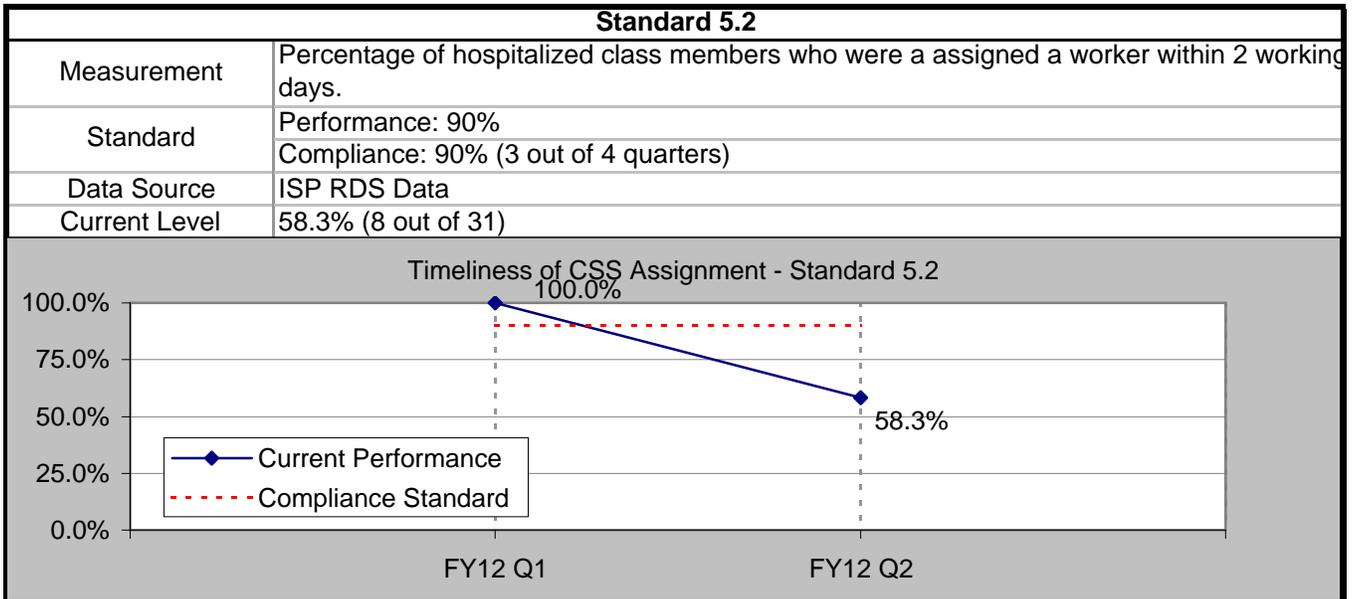

**Community Integration / Community Support Services /  
Individualized Support Planning**

**Standard 5 - Prompt Assignment of CI/ACT Workers, ISP Timeframes/Attendees at ISP Meetings**

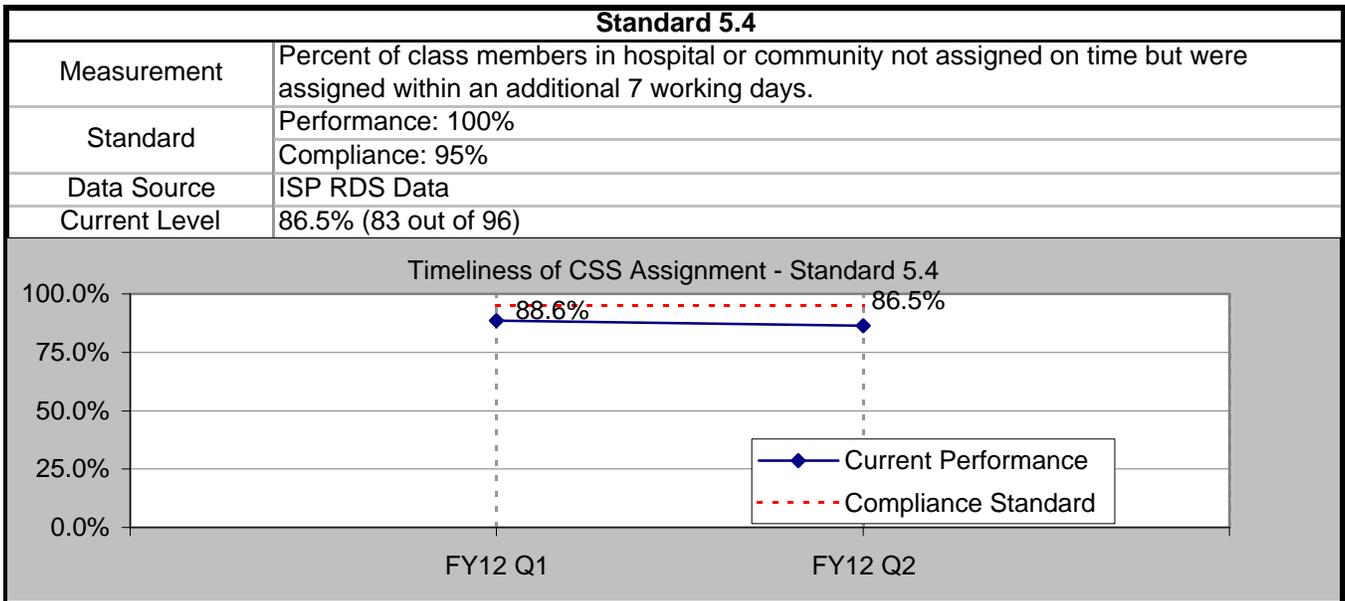

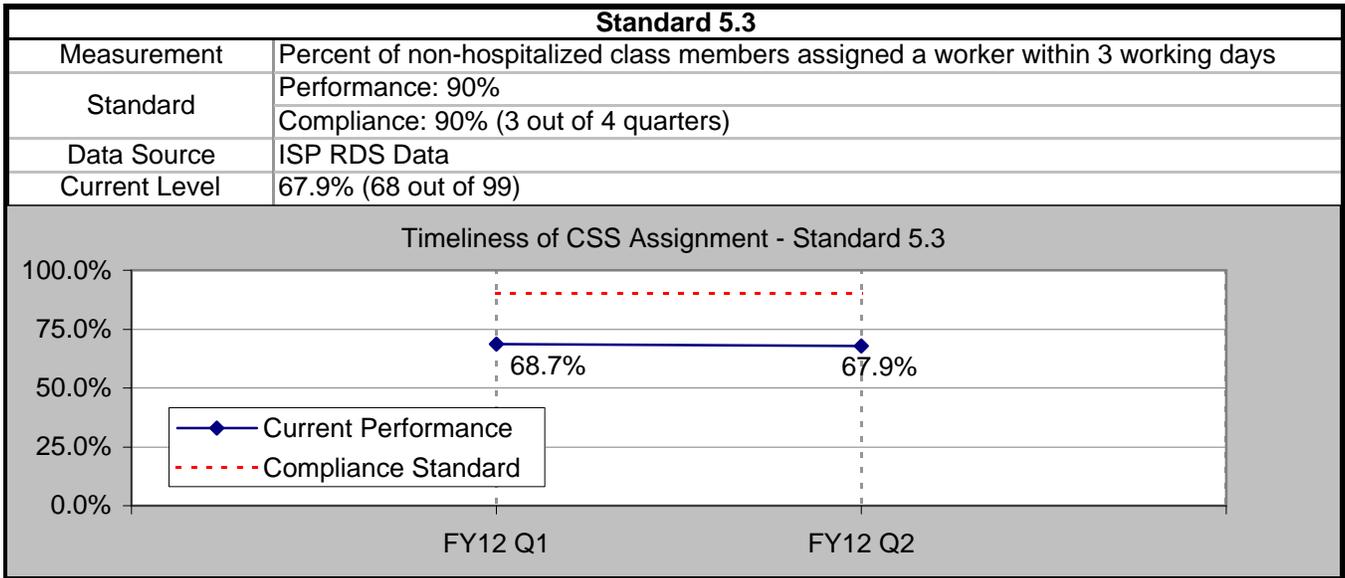

**Discussion:**

Standard 5.1 will be calculated by APS Healthcare and reported on the next quarterly FY 12 Q4

**Community Integration / Community Support Services / Individualized Support Planning**

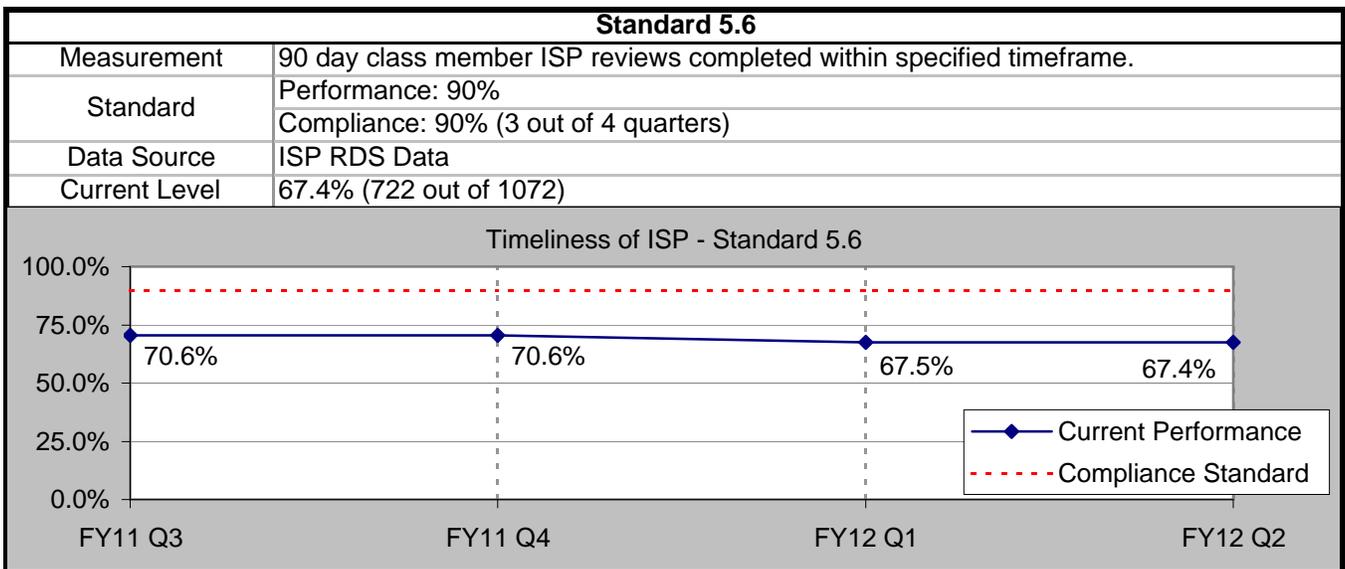

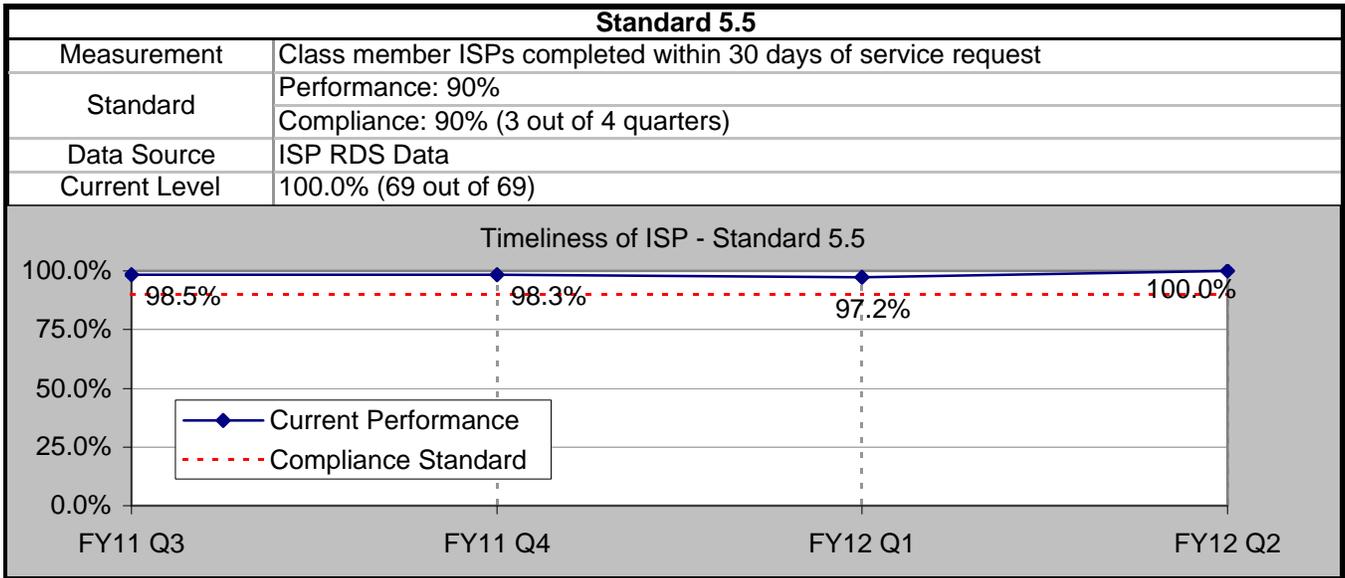

**Discussion:**

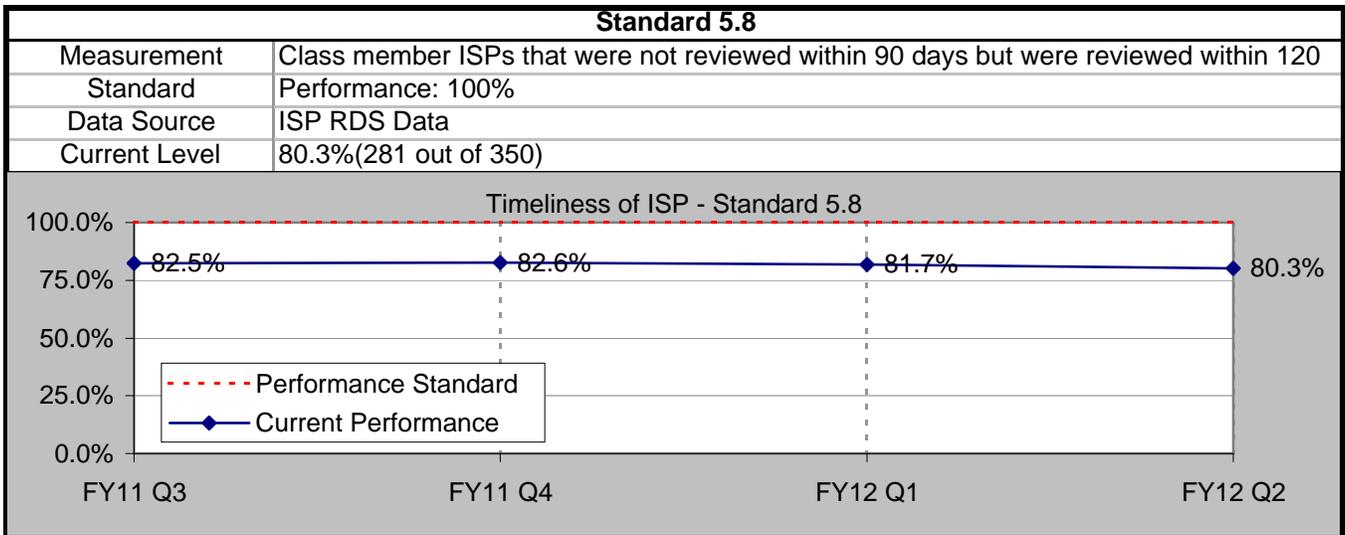

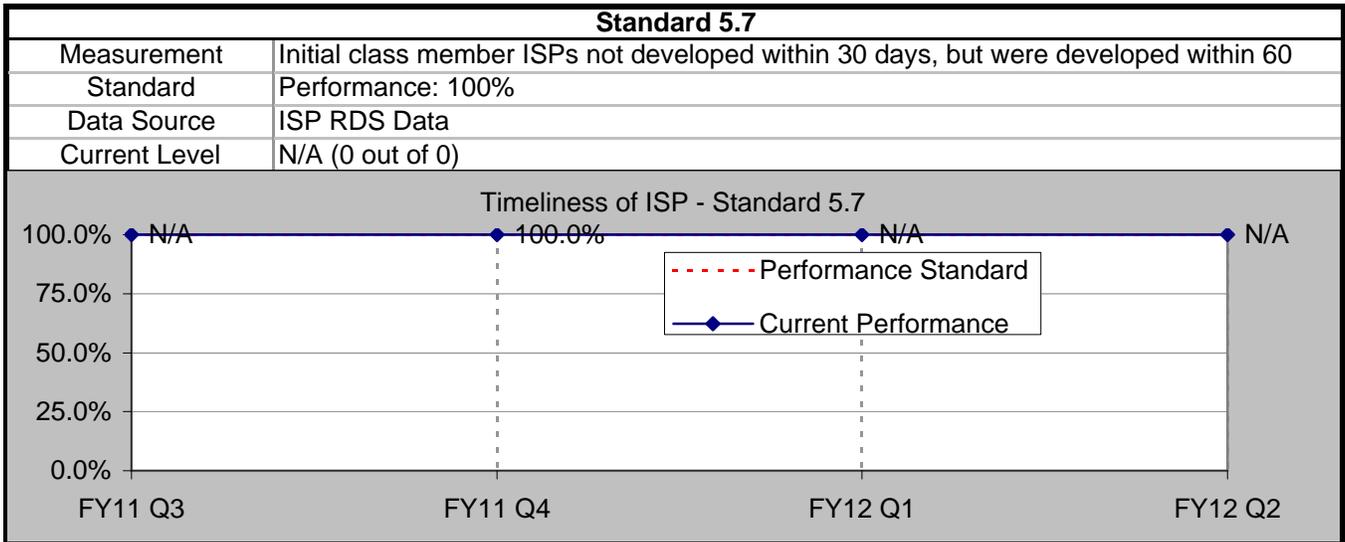

Standard 5.1: This standard is figured on RDS/enrollment data submitted for persons in service. Consequently, the standard is always met as, by definition the individual has a community integration worker. Please see the cover documentation for the unmet resource need report for information as to waitlists.

Standard 5.2, 5.3, 5.4: Timeliness standards continue not to be met. Field service teams continue to review waiting lists with CI agencies on a weekly basis. These steps have been undertaken to work with providers to improve their performance in meeting these standards.

**Community Integration / Community Support Services /  
Individualized Support Planning**

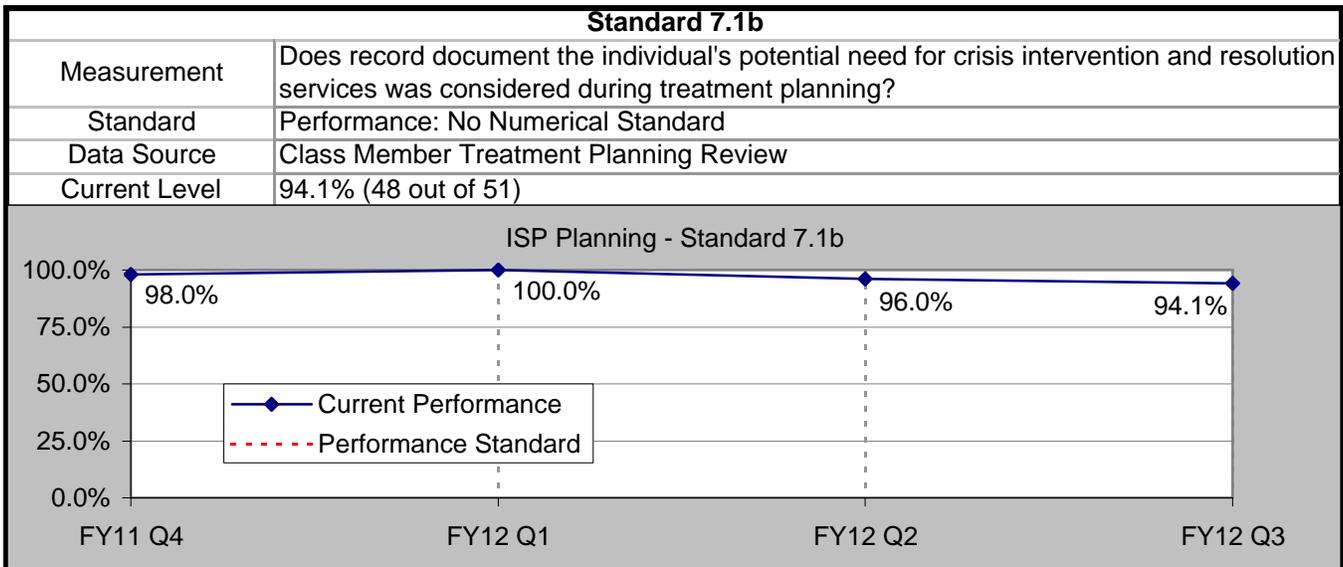

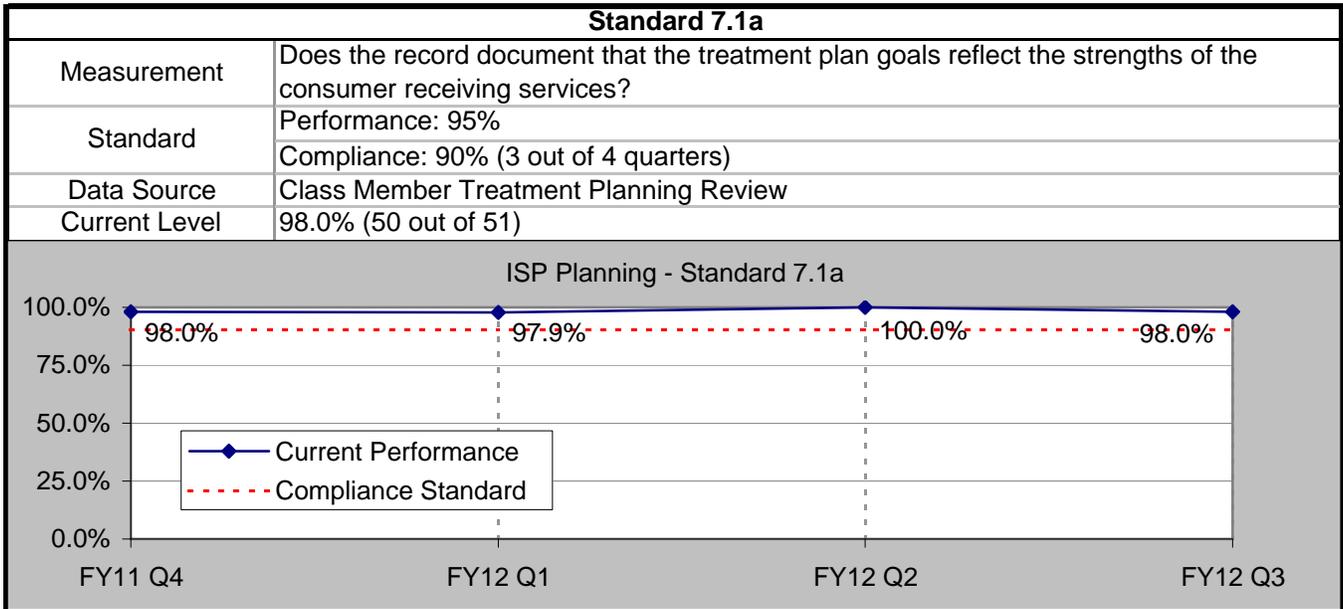

**Community Integration / Community Support Services / Individualized Support Planning**

**Community Integration / Community Support Services / Individualized Support Planning**

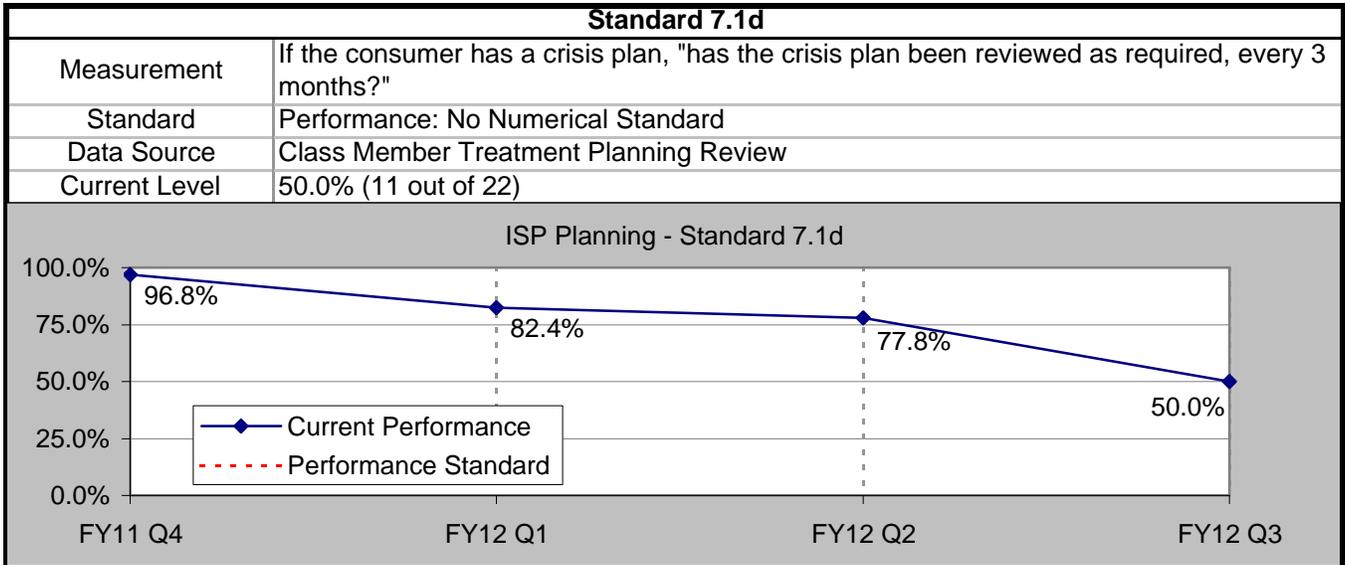

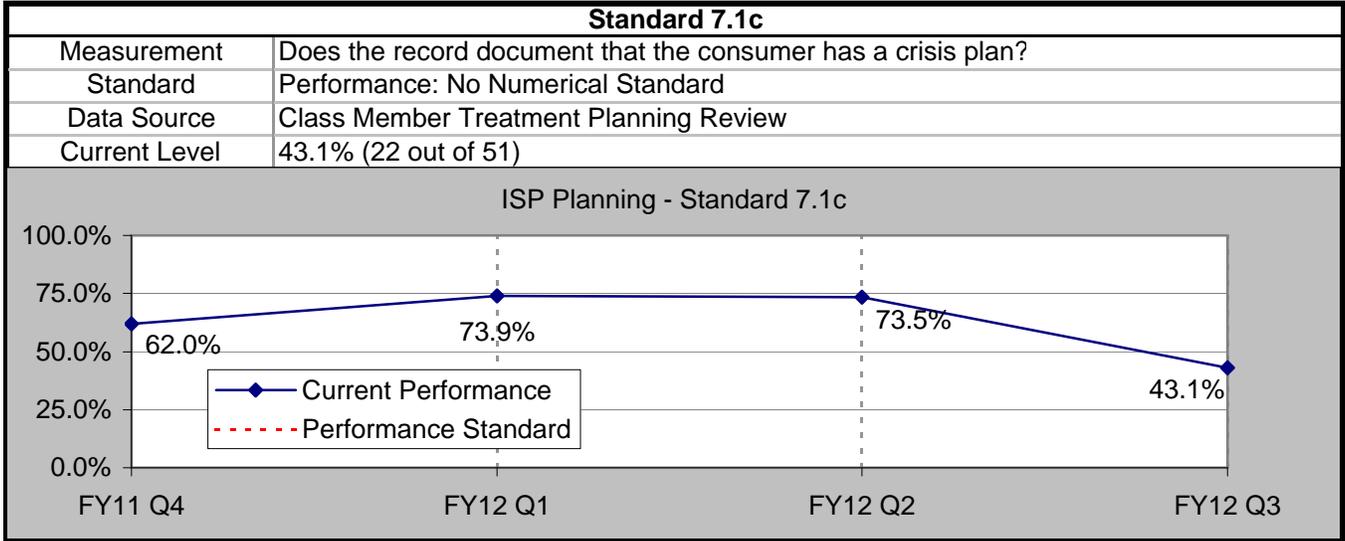

**Standard 7 - ISPs are based on class members' strengths & needs**

**Discussion:**

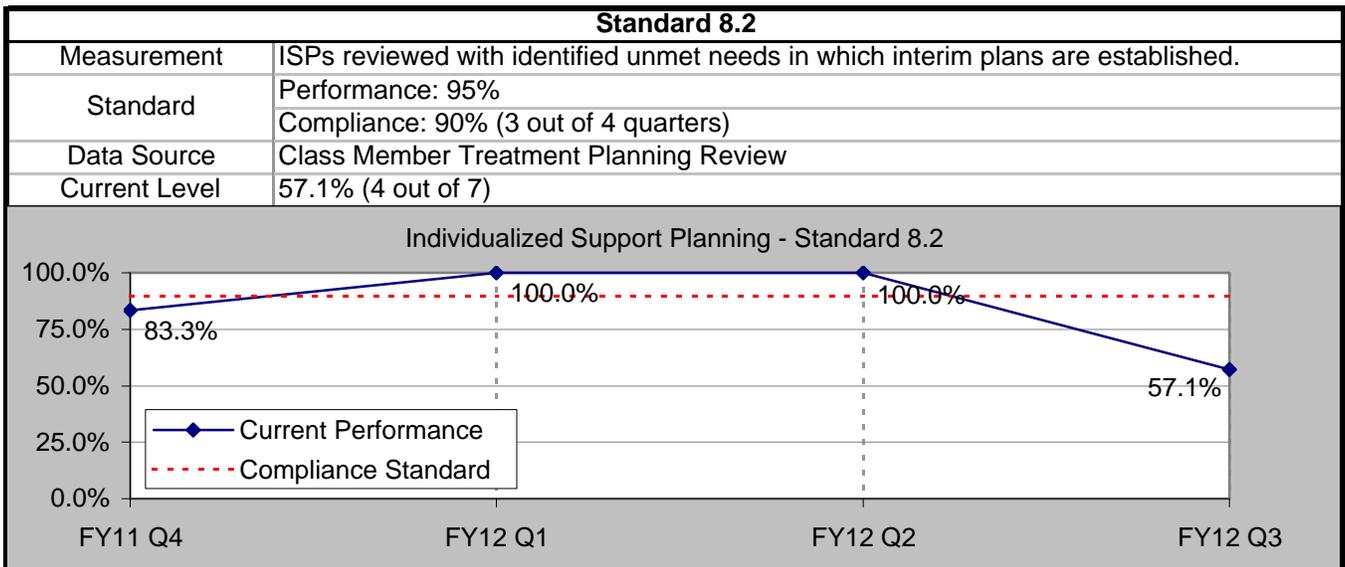

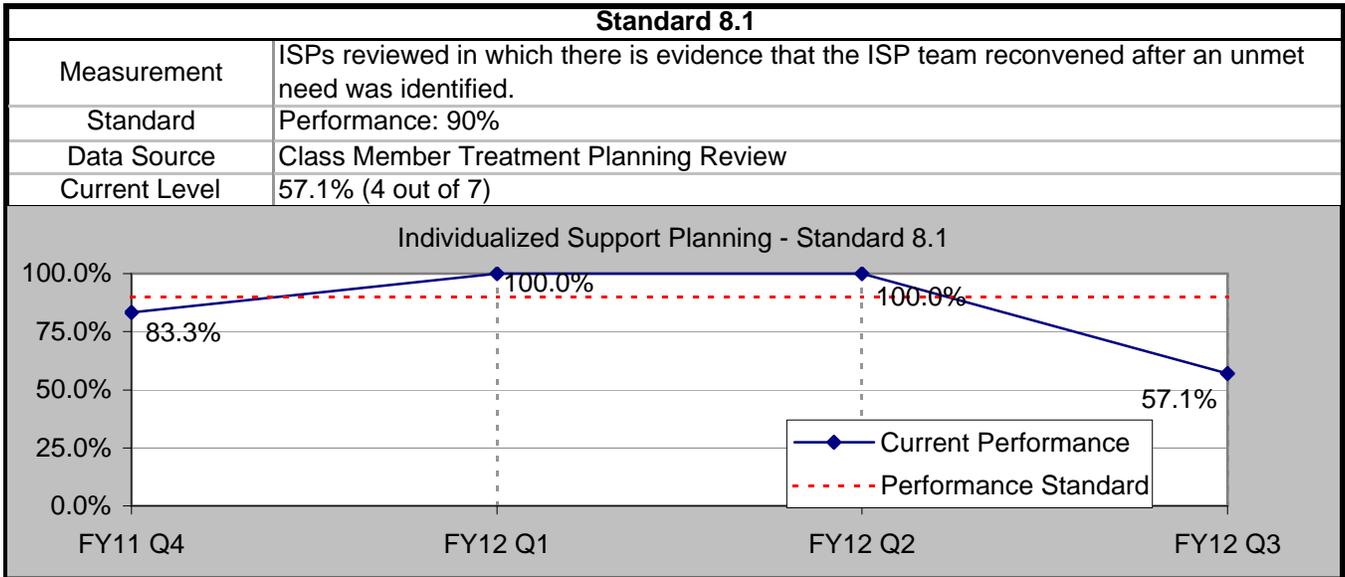

Standard 7.1a: Met continuously since the first quarter of FY 08.

**Community Integration / Community Support Services / Individualized Support Planning**

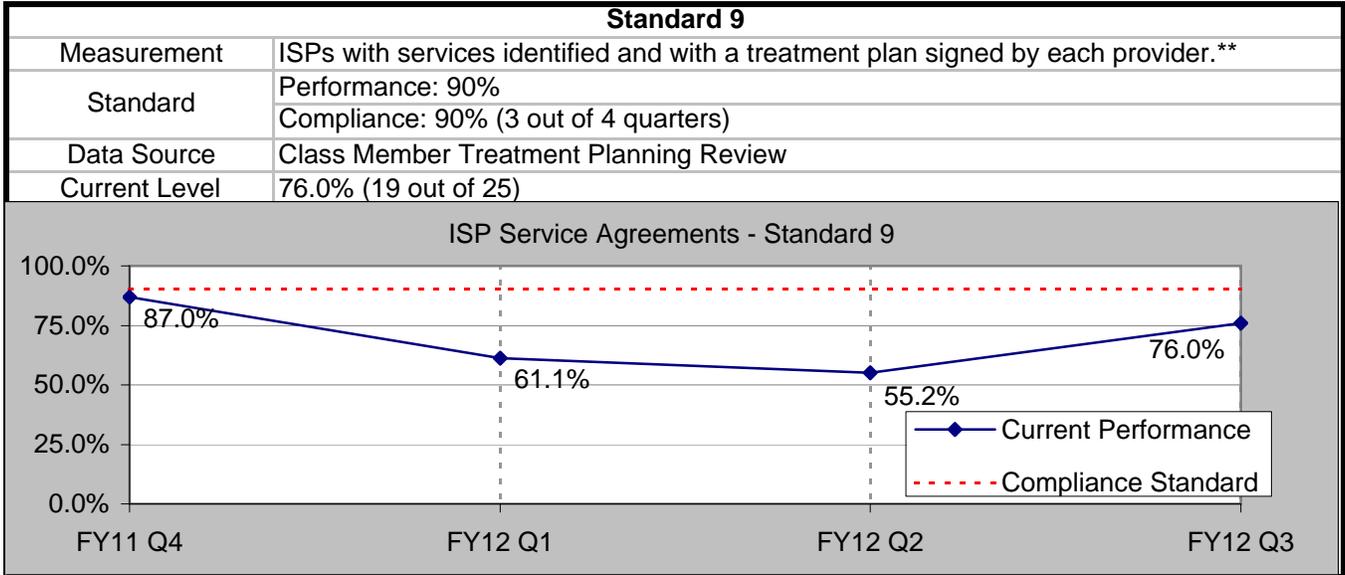

**Community Integration / Community Support Services / Individualized Support Planning**

**Standard 8 - Services based on needs of class member rather than only available services**

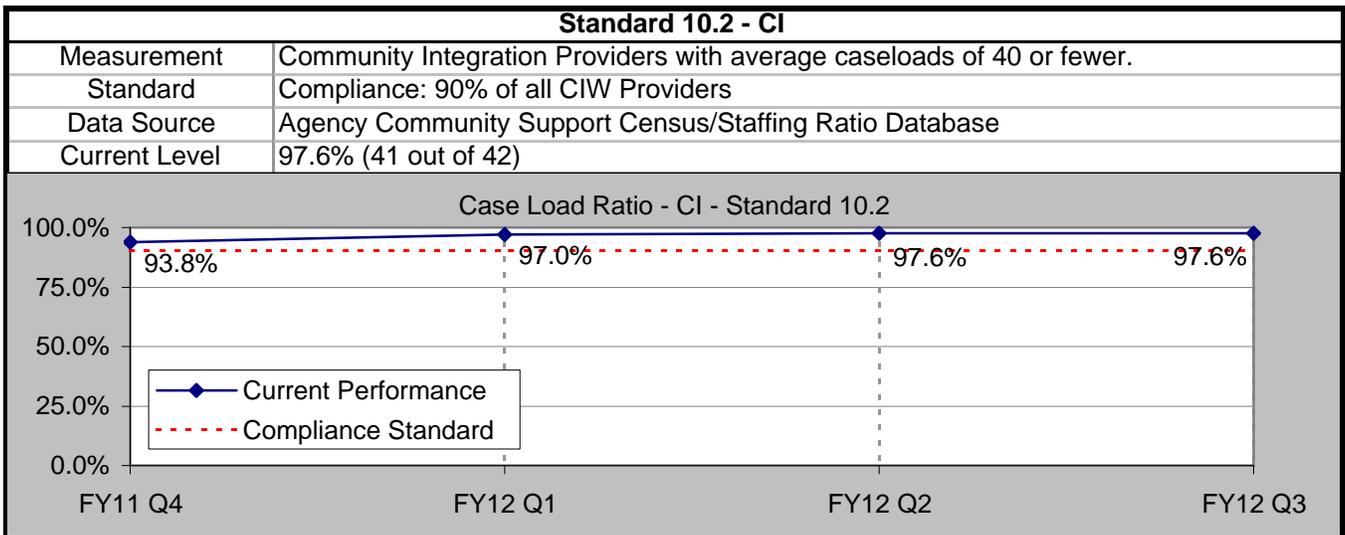

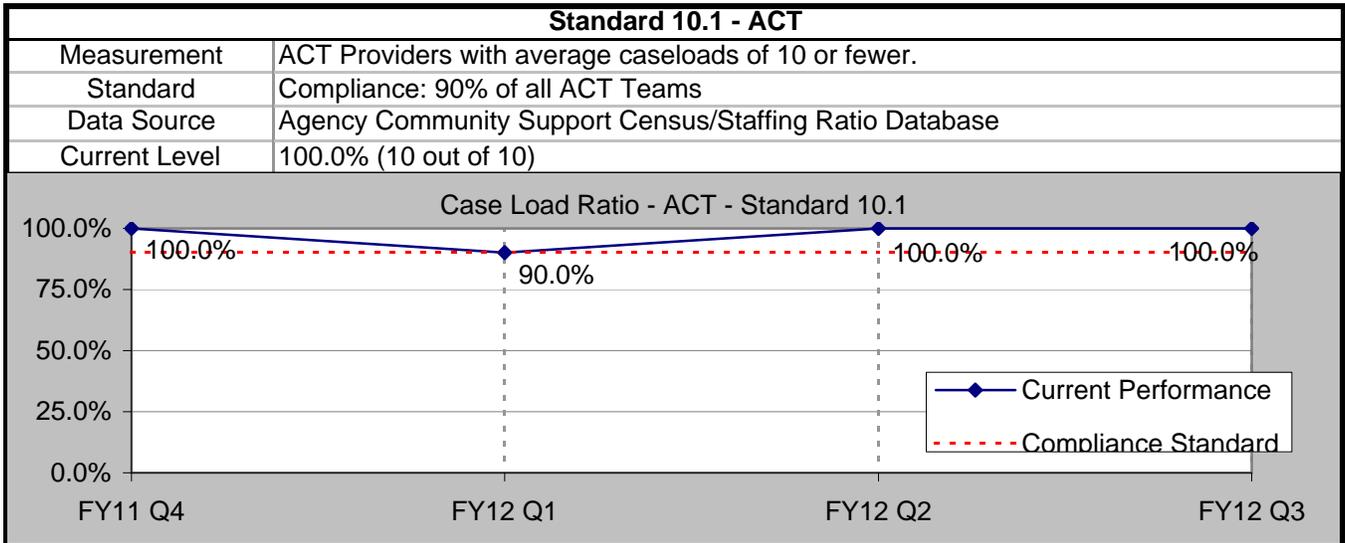

**Community Integration / Community Support Services /  
Individualized Support Planning**

**Standard 9 - Services to be delivered by an agency funded or licensed by the state**

**Community Integration / Community Support Services /  
Individualized Support Planning**

**Standard 10 - Case Load Ratio**

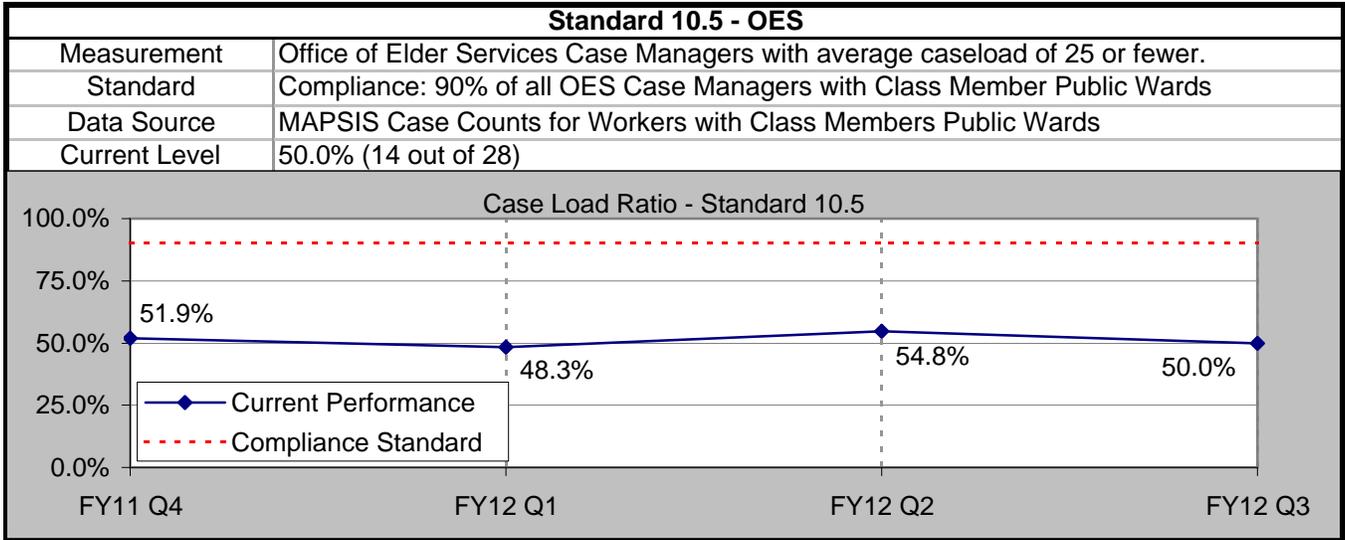

**Discussion:**

Standard 10.1: The 10/01/2009 revision of MaineCare Section 17 clearly specified staff to be included in calculating staffing ratios; ratio has been met since the 2nd quarter FY 10, except Q3 FY 11

Standard 10.2: Community Integration caseload ratios have been met since the 2nd quarter FY 08

**Community Integration / Community Support Services /  
Individualized Support Planning**

<b>Standard 10.4 - ICM</b>	
Measurement	Intensive Case Managers with average caseloads of 16 or fewer.
Standard	Compliance: 90% of all ICM Workers with Class Member caseloads
	ICMs focus on outreach with individuals in forensic facilities or with individuals who are homeless. ICMs no longer carry traditional caseloads. In the future, if ICMs carry caseloads, OAMHS will resume reporting caseload ratios.

**Discussion:**

Standard 10.5: OES continues not to meet staff/client ratios.

**Community Integration / Community Support Services /  
Individualized Support Planning**

**Standard 11 - Needs of Class Members not in service considered in system design and services**

<b>Standard 11.1</b>	
Measurement	Number of class members who do not receive services from a community support worker identifying resource needs in an ISP-related domain area.
Standard	No numerical standard.

- 1 patient discharged within 7 days post clinical readiness for discharge
- 2 patient discharged 8-30 days post clinical readiness for discharge
- 1 patients discharged 31-45 days post clinical readiness for discharge
- 1 patients discharged greater than 45 days post clinical readiness for discharge

**Community Resources and Treatment Services  
Housing and Residential**

**Standard 15 - Housing where community services are located / Homes with more than 8 beds**

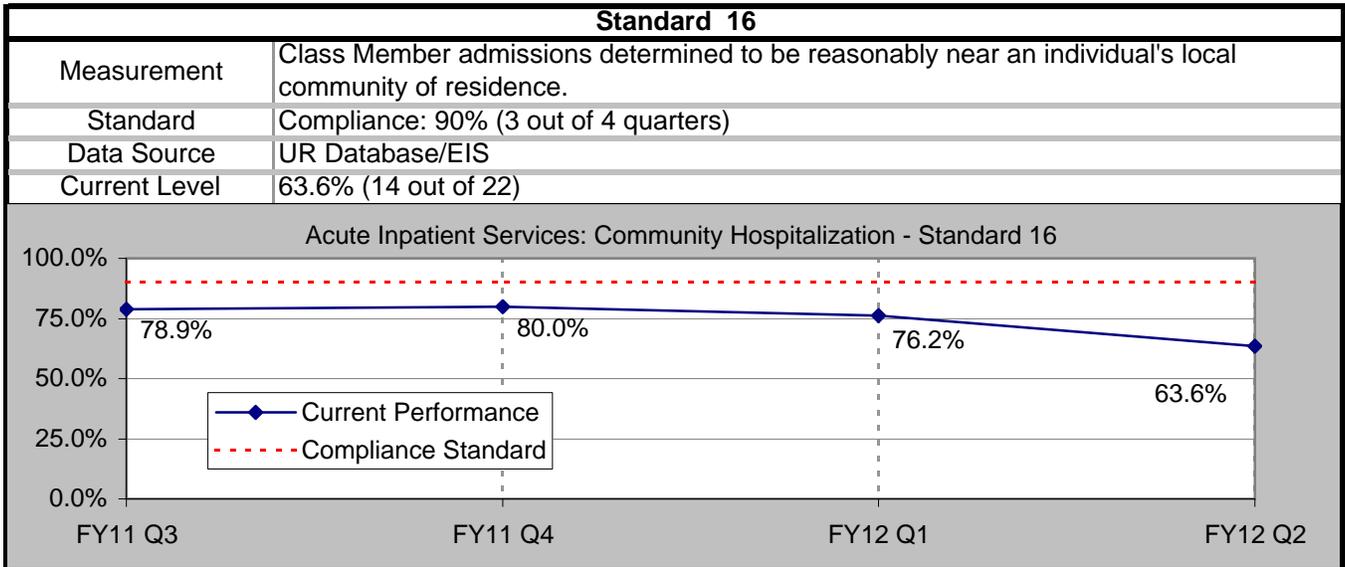

**Discussion:**

Standard met since 2007.

The protocol for obtaining the informed consent of Class Members to live in homes with greater than 8 beds (Settlement Agreement Paragraph 96) is followed annually to track data for this standard. OAMHS submitted an amendment request to modify this requirement on November 23, 2011. While the request is being reviewed, OAMHS was granted permission to hold the 2011 review in abeyance until a decision is made.

**Community Resources and Treatment Services  
Acute Inpatient Services: Involuntary Community Hospitalization**

**Standard 16 - Psychiatric Hospitalization reasonably near an individual's local community**

Reasonably Near is defined by Attachment C to the October 29, 2007 approved Compliance Standards.

**Discussion:**

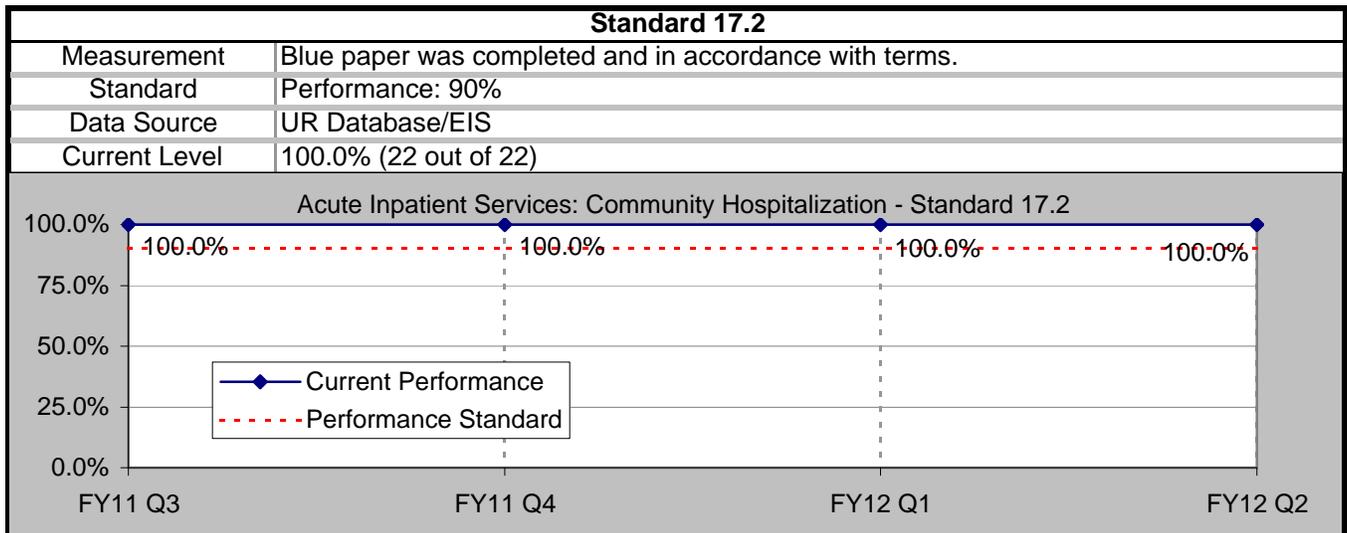

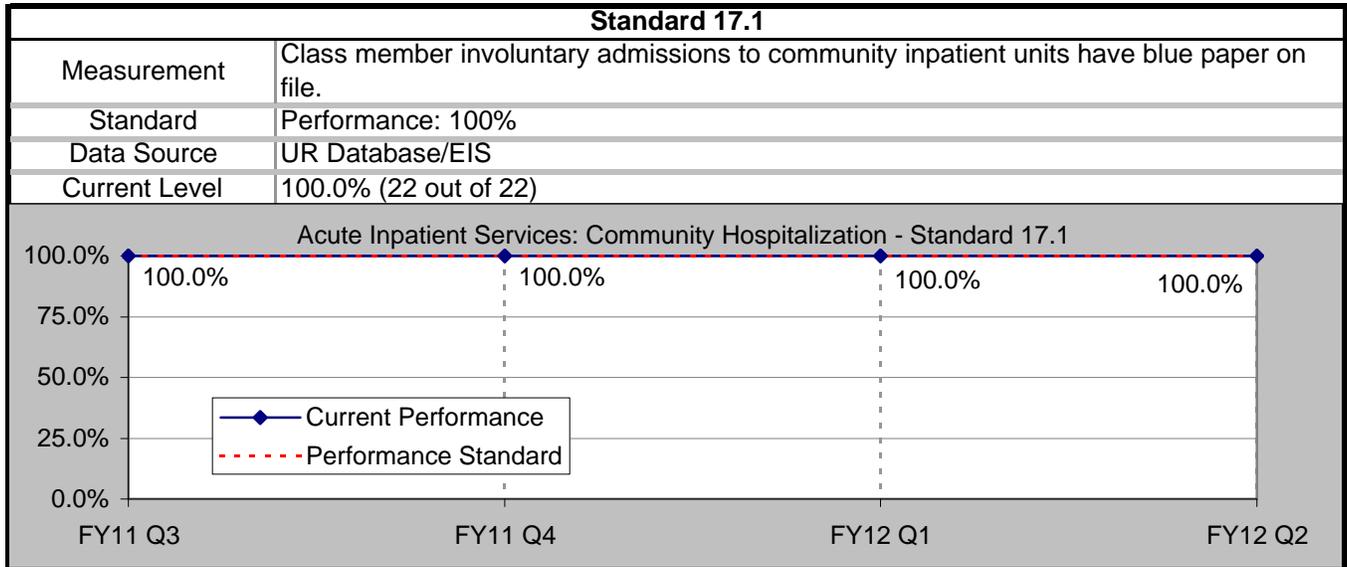

Standard not met since Q4 FY 10. The number of class member reviews is small making it difficult to draw conclusions systemically.

**Recommendations:**

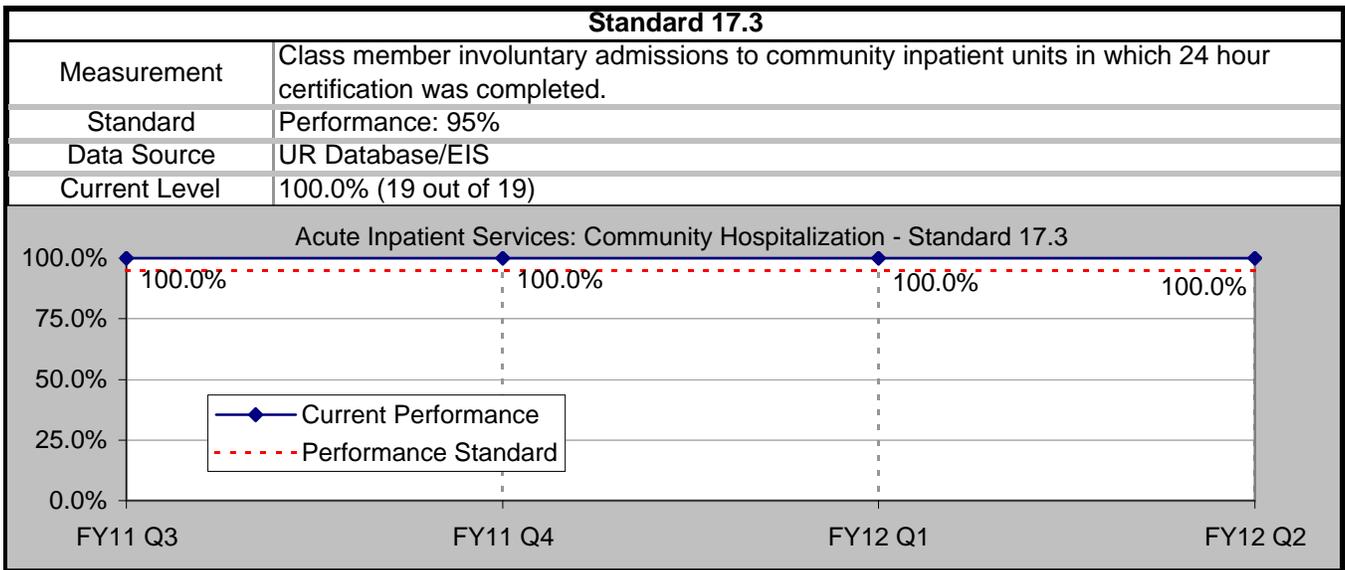

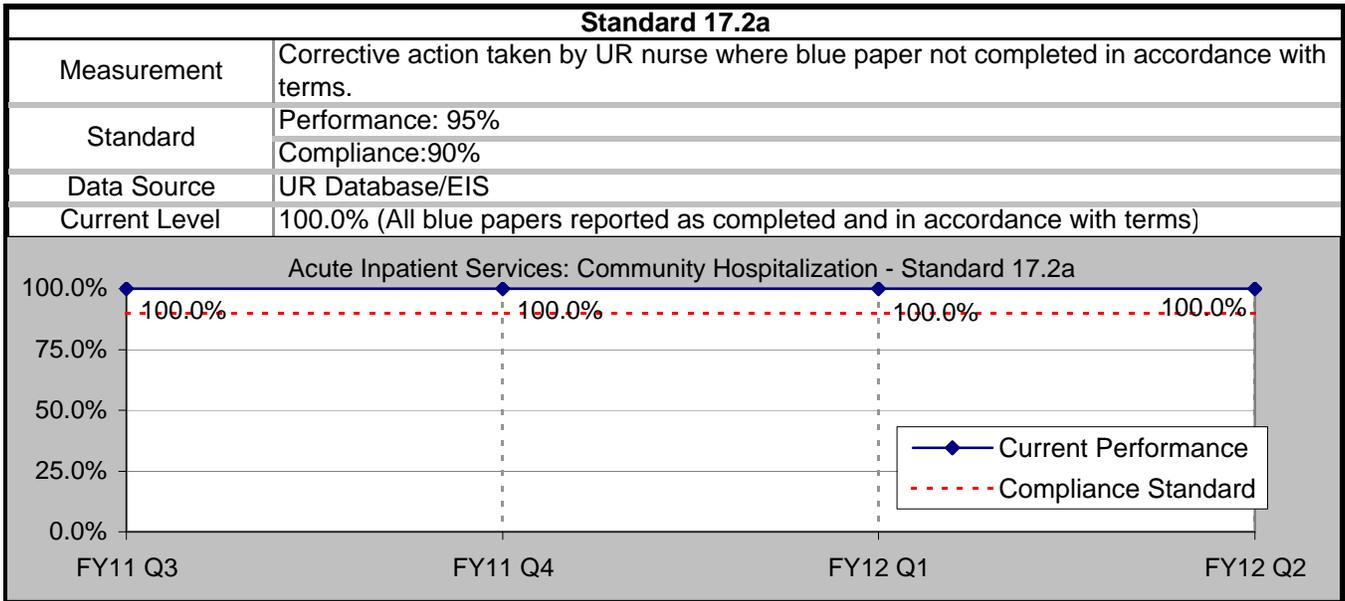

Continue to monitor.

**Community Resources and Treatment Services

**Discussion:**

Standards 17.1, 17.2, 17.3, 17.4a, and 17.5: Consistently met since the 1st quarter of FY 08

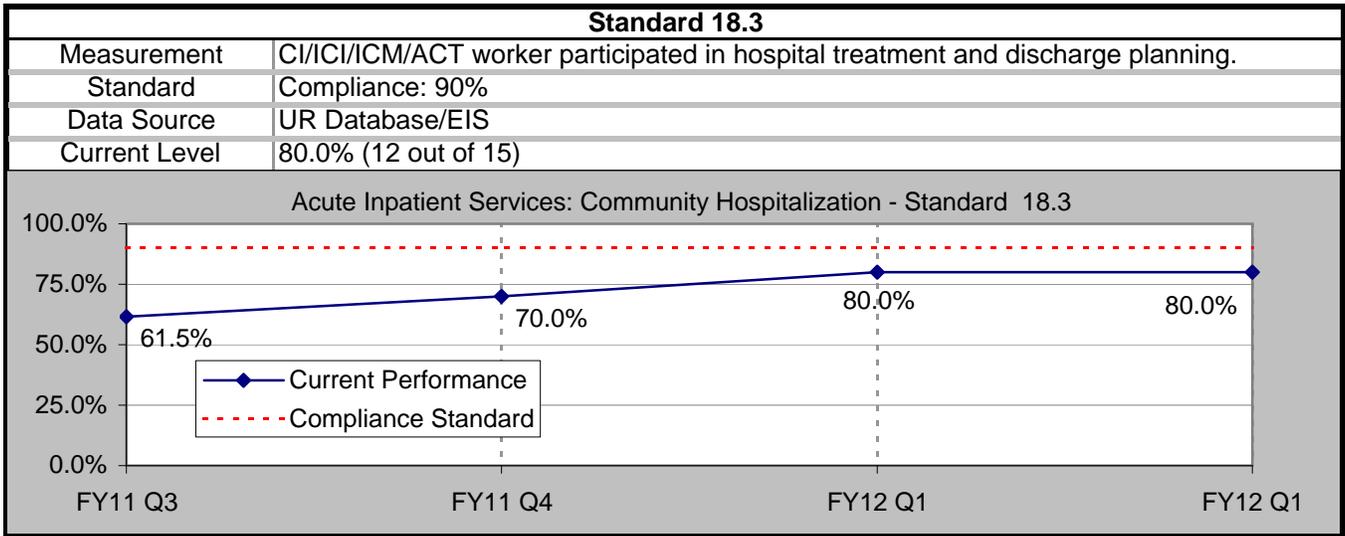

Standard 17.4: Not met the 3rd and 4th quarters FY 11. All rights violations are referred to hospital licensing. FY 12 met for 1st and 2nd quarters.

**Community Resources and Treatment Services**  
**Acute Inpatient Services: Involuntary Community Hospitalization**

**Standard 18 - Continuity of Treatment is maintained during hospitalization in community inpatient settings**

**Community Resources and Treatment Services  
Acute Inpatient Services: Involuntary Community Hospitalization**

**Discussion**

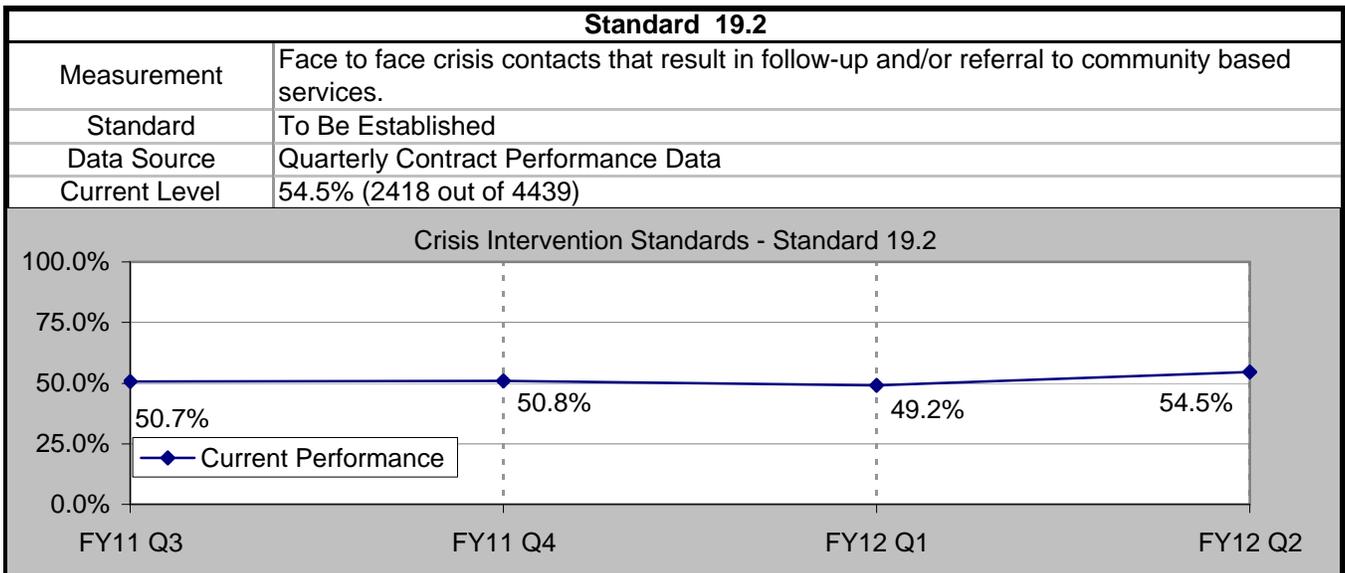

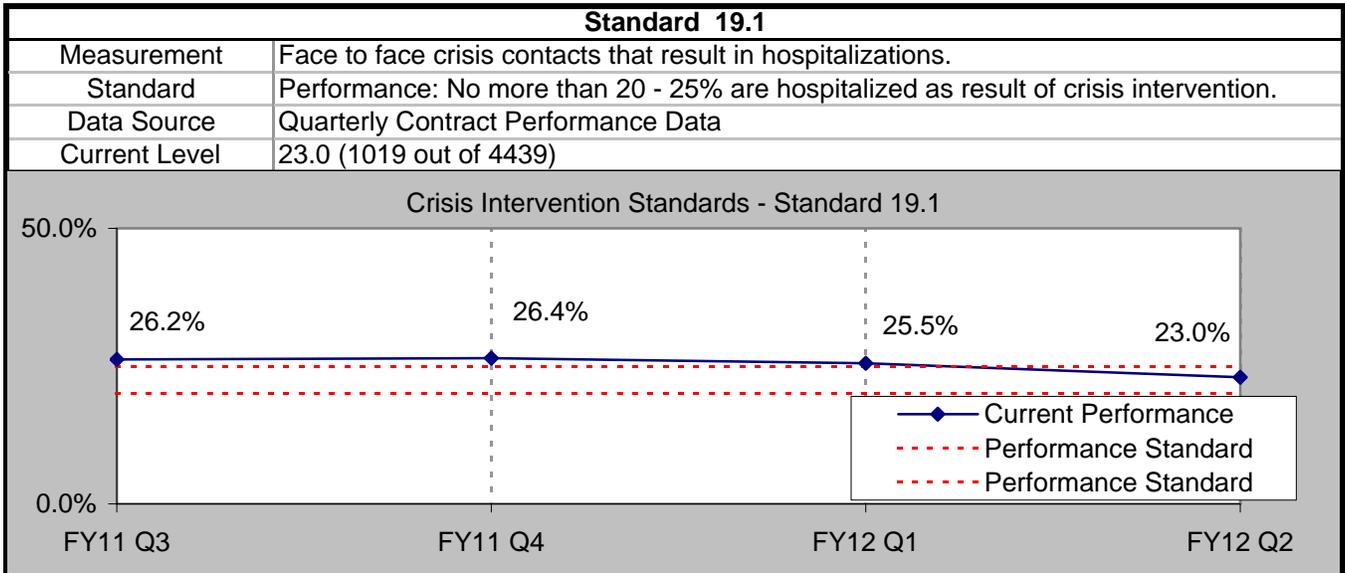

Standards 18.1, 18.2, and 18.3: Each quarter, hospital specific data regarding these standards is posted online and CSNs notified of their availability. Numbers for each standard are very small making it difficult to draw definitive conclusions. Worker participation has been higher than the hospital actually receiving the ISP.

**Recommendations:**

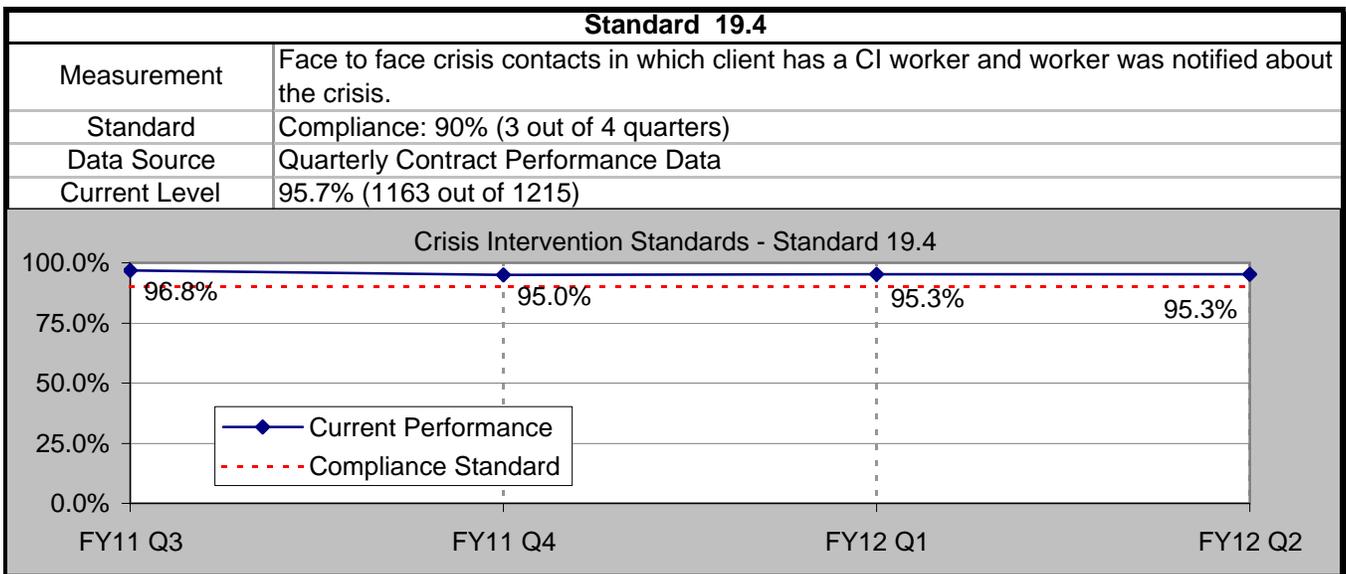

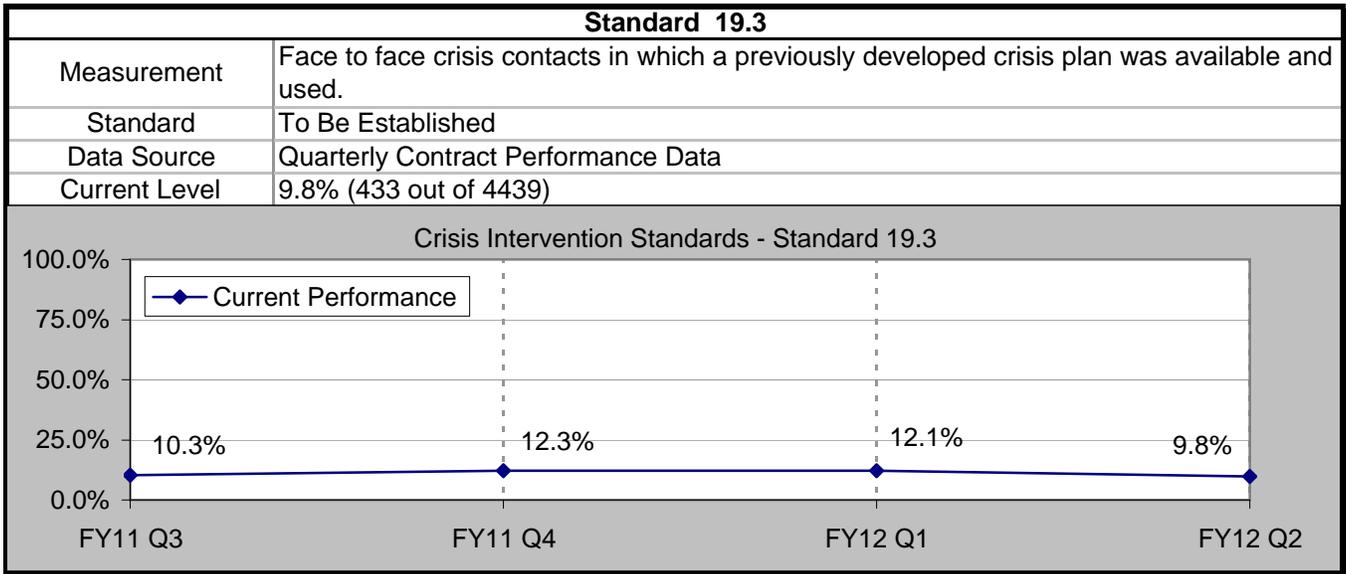

Continue to monitor and post data on the OAMHS website

**Community Resources and Treatment Services

## System Outcomes: Supporting the Recovery of Adults with Mental Illness Recovery

### Standard 32 - Functional improvements in the lives of class members receiving services

**System Outcomes: Supporting the Recovery of Adults with Mental Illness  
Recovery**

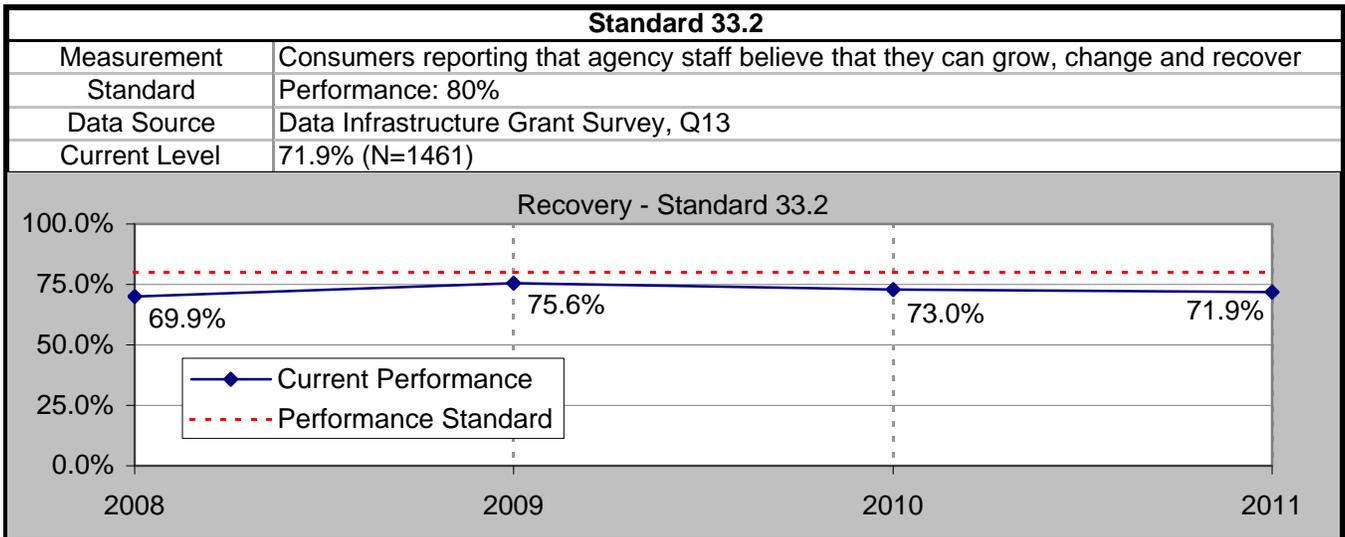

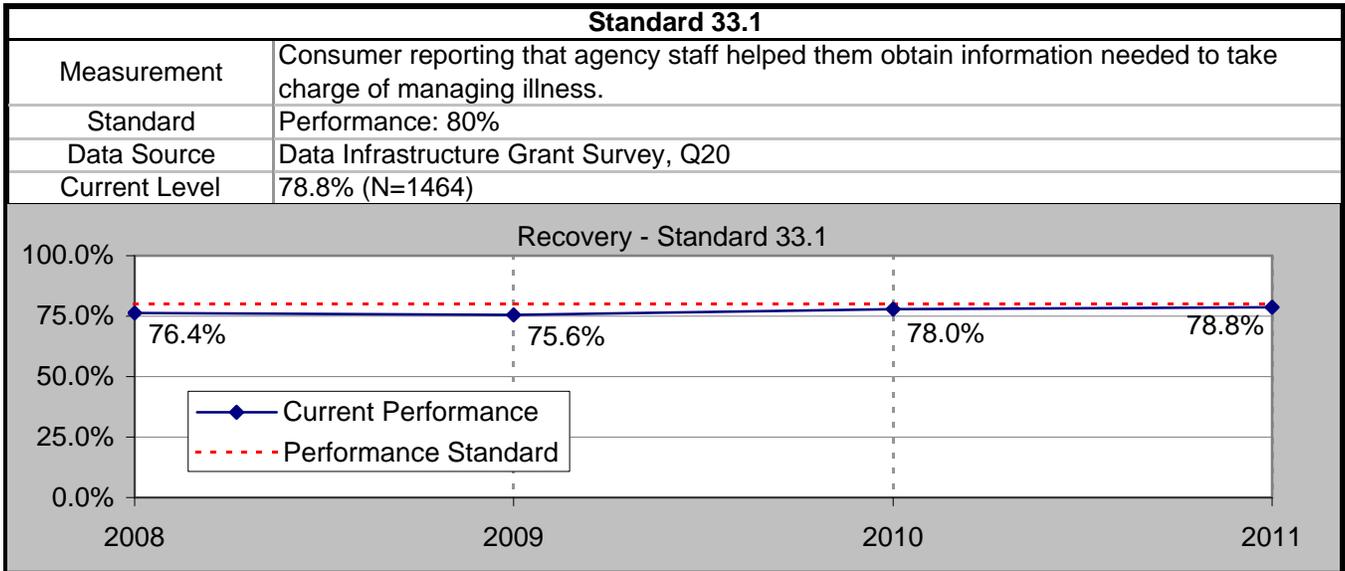

**Discussion:**

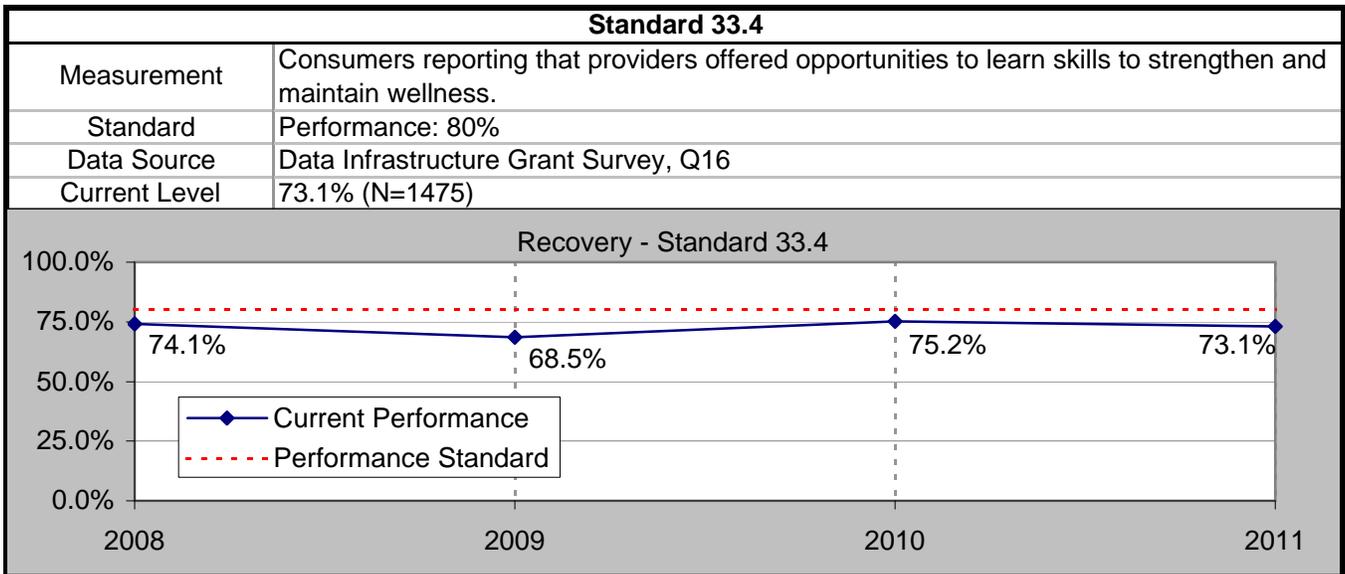

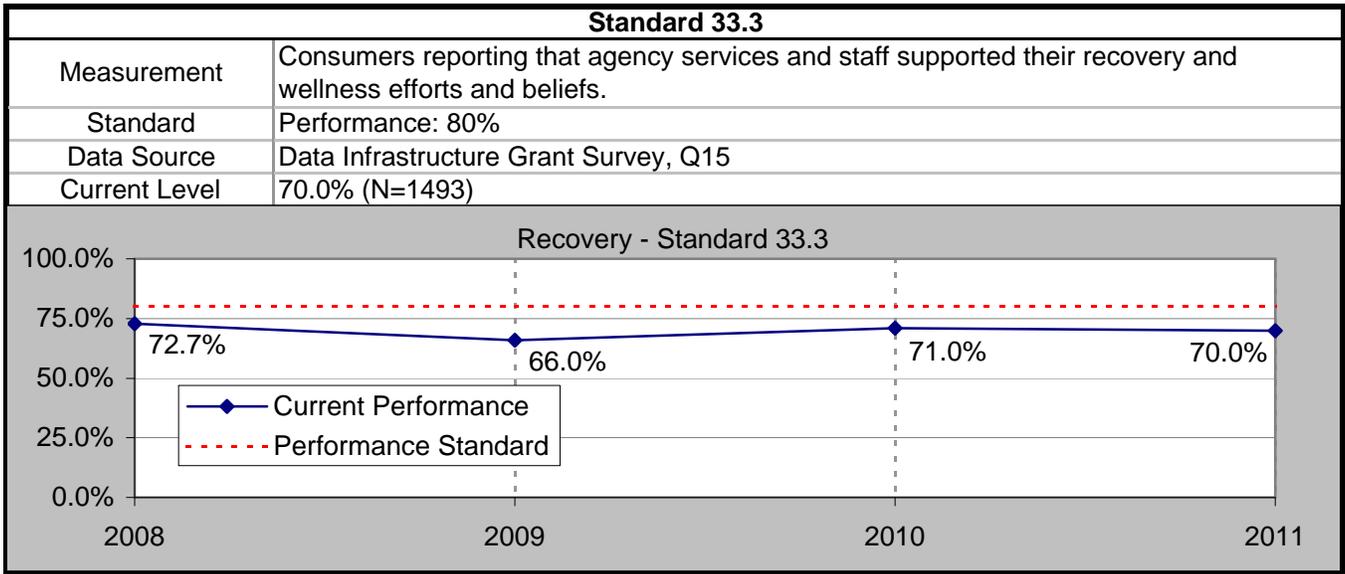

The result of the 2008 DIG Survey pertaining to functional outcomes can not be compared to the results obtained in 2007, and earlier, due to the language change in the header between the two administrations. In 2007, the header read: "As a direct result of your services...". In 2008, the header read: "In order to provide the best possible mental health services, we would like to know the effectiveness of your mental health services during the past 30 days". This change was made in order to move towards using the DIG survey to measure individual outcomes over time by narrowing the timeframe on the information collected. The change in headers resulted in a dramatic change in percentage of individuals reporting positively on functional outcomes.
