

USING RX SENTRY

Prescriber History Query

Prescriber History Query

- This function allows you to audit the system for all queries (searches) that were performed using your user ID for a specified time frame.
- So you can see when and who your credentials searched for.

Creating a Prescriber History Query

Step 1: First log-in to RxSentry

<https://mepdm-ph.hidinc.com/melogappl/bdmepdmqlog/pmqaccess.html>

- A window similar to the following is displayed

Maine Prescription Monitoring Program

Maine Data Requesters' Query Site

Query Creation Tip

Make your query as general as possible and then drill down to more specific information once you have identified the person for whom you are looking. For example, you could enter the last name of the individual, the first letter of the first name, and a birth date, and then click Next. When the preliminary results are displayed on the screen, you can highlight the person that you want to query and then click Submit to submit the query for processing.

If you enter a specific birth date for an individual and the query results are blank, click the Within field just below the Date of Birth field and resubmit the query with a wider date range, for example, within two years of birth date, to create a query with broader search criteria.

Once you have submitted the query for processing, you will be redirected to the Report Queue. In the Report Queue, click the Job Sequence ID number to view the report you requested. If the Job Sequence ID is not a hyperlink, click your browser's refresh button. The Job Sequence ID will appear as a hyperlink when the report is ready for viewing.

Step 2: Click on “Prescriber History Query”

- Put a check in the “I accept” box to certify you have a valid reason for accessing the data and that you are authorized to submit the query. This moves you to the next screen.
 - **Note:** Without selecting the check box, you will not be able to access the Prescriber History Query window.

Maine PMP Liability Statement for Prescriber/Pharmacist/Sub-account User Access

I certify that I have been approved by the State of Maine to access the information in the Prescription Monitoring Program (PMP) RxSentry database.

I certify that the person for whom I am requesting PMP data is under my care or is a customer "seeking to have a prescription filled" or I have been authorized by a prescriber or pharmacist for whom I work to request this data for a current patient/customer on his or her behalf.

I understand that inappropriate access or disclosure of PMP data is a violation of state law and may result in criminal, civil, or administrative sanctions, including revocation of my license and/or revocation of my database access privileges.

I accept the above conditions and certify that I have met the requirements to be eligible to access the PMP RxSentry database.

Disclaimer: The Department of Health and Human Services makes no claims, promises, or guarantees about the accuracy, completeness, or adequacy of the contents of this report, and expressly disclaims liability for errors and omissions in the contents of this report. The records herein are based on information submitted by pharmacies. Records on this report should be verified before any clinical decisions are made or actions are taken.

You must accept the above conditions before you can continue.

Step 3: Enter the dates you want to run your audit for, click submit.
