RE: Request for Determination of CON Applicability of
MMC Imaging Project: Install 1.5T MRI at 22 Bramhall

Dear Ms. Taylor, Mr. Carbonneau, and Mr. Lawrence,

This letter summarizes Maine Medical Center's project to add a 1.5T MRI to its main campus, 22 Bramhall, Portland, Maine. MMC requests your determination of CON applicability. MMC believes that this project is not reviewable by the State under The State of Maine's Certificate of Need requirement because:

- The project does not result in a new healthcare facility or a new healthcare service. MMC currently provides MRI services at this location.
- The cost of equipment is below the 2017 CON Equipment Threshold of \$3,620,916.
- The total cost of the project is below the 2017 CON Capital Expenditures threshold of \$11,315,363.

This project is in review as part of MMC's Fiscal Year 2017 and outlined below.

Project Steps	Estimated Cost
Renovate space	\$ 300,000
Install new 1.5 Tesla MRI	\$ 1,600,000
Total Cost of Project	\$ 1,900,000

All communications regarding this request may be directed to:

Al Green
Director of Planning
Maine Medical Center
22 Bramhall Street
Portland, Maine 04102
agreen@mmc.org
