

### **Consent Decree Performance and Quality Improvement Standards: August 2013**

The attached compliance and performance standards are primarily for use in monitoring, evaluation and quality assurance of the areas covered by the Consent Decree pertaining to the community mental health system. The standards are intended to offer the parties and the court master a means of measuring system function and improvement over time and the Department's work towards compliance. If the percentage is within .5% of standard, the standard is considered met.

Starting fiscal year 2012, quarter 3, standard 5.2, 5.3 and 5.4 will now be calculated by APS Healthcare. Standard 5.1 will be calculated by APS Healthcare and reported on the next quarterly report, FY 12 Q4.

All standards utilizing RDS/enrollment data, inclusive of unmet need data, are reported one quarter behind (for example, reporting 3<sup>rd</sup> quarter data in the 4<sup>th</sup> quarter).

Reporting includes, where pertinent, discussion of the data and recommendations.

#### **Definitions:**

- Standard Title: What the standard is intending to measure.
