Consent Decree Performance and Quality Improvement Standards: August 2015

The attached compliance and performance standards are primarily for use in monitoring, evaluation and quality assurance of the areas covered by the Consent Decree pertaining to the community mental health system. The standards are intended to offer the parties and the court master a means of measuring system function and improvement over time and the Department's work towards compliance. If the percentage is within .5% of standard, the standard is considered met.

All standards utilizing RDS/enrollment data, inclusive of unmet need data, are reported one quarter behind (for example, reporting 3^{rd} quarter data in the 4^{th} quarter).

Reporting includes, where pertinent, discussion of the data and recommendations.

Discussion:

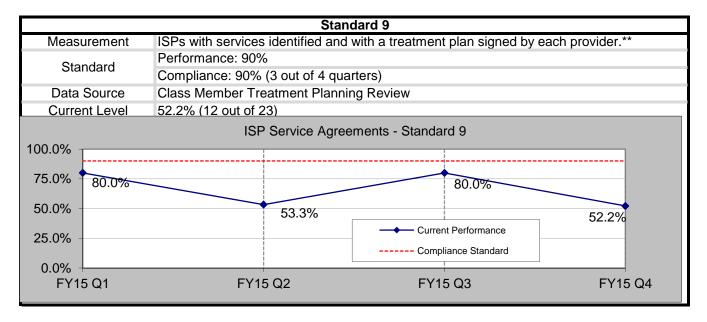

Standards 5.1 - 5.8: Field Quality Managers have completed additional agency trainings around assignment times. Assignment time performance measures are now included in Rider E of agency contracts. Data Quality Management Team will identify outliers for follow up by the treatment team and provider agencies driving these numbers. NIATx has also been deployed within seven agencies to collaberate around resolution to these issues.

Standard 8 - Services based on needs of class member rather than only available services

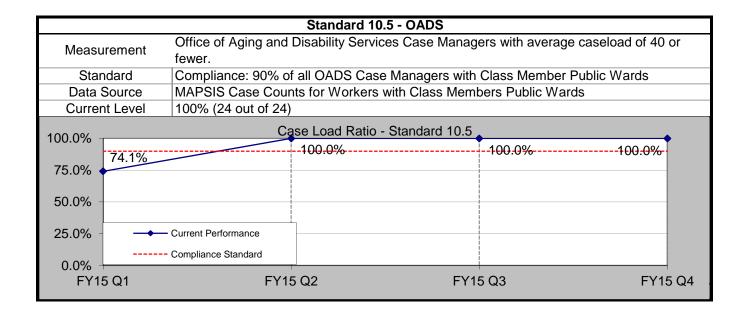

Standard 9 - Services to be delivered by an agency funded or licensed by the state

Discussion:

Standards 8.1, 8.2 and 9 - Field Quality Managers continue to perform document reviews and work with the agencies around unmet needs and service agreements.

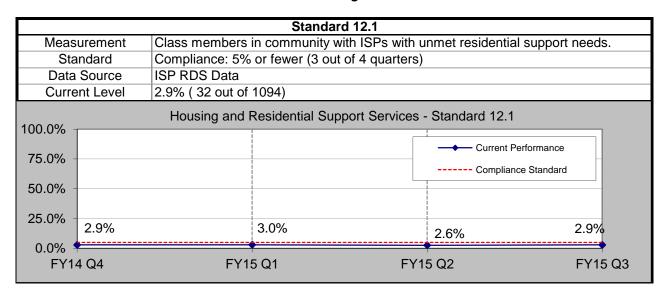

Standard 10.4 - ICM				
Measurement	Intensive Case Managers with average caseloads of 16 or fewer.
