#### Statewide Report of Unmet Resource Needs for Fiscal Year 2016 Quarter 1

July, August, September, 2015

#### **Purpose of Report:**

This report examines:

- a.) level of unmet resource needs for 14 categories
- b.) geographical variations in the reports of unmet resource needs
- c.) trends across quarters

Data for this report is compiled from individuals who indicate a need on their ISP (individualized support plan) for a resource that is not available within prescribed timeframes. Some needs classified as unmet may have subsequently been met before the end of the quarter. Compiled data is based on:

- · the client's address
- completed RDS (Resource Data Summary) reports by case managers (CI, ACT, CRS and BHH)
- both class members and non-class members

#### Data collection and reporting:

Enrollment and RDS data is entered by providers into APS Healthcare's CareConnection at the time of the Initial Prior Authorization (PA) request and at all Continuing Stay Reviews. Data is then fed to the EIS Database on a monthly basis.

Unmet resource need data is reported and reviewed one quarter after the quarter ends as this method gives a more accurate picture of unmet resource needs.

Statewide data is reported first, followed by individual CSN reports.

As of Sept 19, 2011 all "other" categories within each major resource need category were no longer an available option for reporting within APS CareConnections. There remains one stand alone "other resource need" category for those resources that are not available within any other category. As a result of this change, OAMHS will no longer be reporting on those "other" categories within each resource need category.
