

2016 Halibut Tag Order Form

Dear Halibut Fisherman:

Department of Marine Resources regulations require all halibut fishermen to immediately tag their halibut catch. Landing tags must be attached tightly around or through the tail just before the tail fin. Landing tags will be issued in one allotment of 25 tags per vessel. Landing tags will be issued to those holding a 2016 Commercial Fishing License with the Halibut endorsement. Tags must also be issued to fishermen with federal multispecies permits who wish to land their incidental halibut catch in Maine.

If you do not order tags at the time of the license renewal/issuance, you must send in your license with your tag order as tag numbers MUST be printed on your 2016 Commercial Fishing License.

Landing tags shall be attached in a manner for which the tag was designed tightly around or through the tail just before the tail fin. The tag must remain on the fish until the fish has reached its final destination as a legal-sized fish that is not offered or intended for sale, trade, or barter by a recreational fisherman or prior to retail sale by a Commercial Fishing license holder or Wholesale Seafood dealer. Any person in possession of Atlantic halibut without a DMR landings tag shall not be in violation of the possession limits of this Chapter if that person is in possession of a bill of lading showing the Atlantic halibut were lawfully obtained from an origin outside the State of Maine or identified in accordance with the exception for Atlantic halibut raised by means of aquaculture in Chapter 34.10(1)(B)(4)(ii). The absence of a bill of lading shall be prima facie evidence that the Atlantic halibut were landed in Maine i.e., not shipped into Maine.
