Notice of Agency Rule-making Proposal

AGENCY: 13-188-Department of Marine Resources

CHAPTER NUMBER AND TITLE: Chapter 8 Landings Program; Chapter 36 Herring; Chapter 41 Menhaden

PROPOSED RULE NUMBER (leave blank; to be assigned by Secretary of State):

BRIEF SUMMARY:
This proposed rule would update reporting requirements for lobster license holders to replace “distance from shore” with a 10-minute square, and also require the reporting of the number of endlines hauled that fishing trip. It would replace references to the IVR herring permit in Chapters 8 and 36 with a herring permit. Finally, it would require individuals intending to participate in the menhaden fishery to obtain a menhaden permit on their commercial pelagic and anadromous license, to facilitate proper reporting in that fishery as required in Chapter 41.

A. Ten percent of the lobster and crab fishing license holders, except lobster apprentices, during a given calendar year will be randomly selected to report the listed data elements for the following calendar year with the exception that all (100%) of lobster and crab fishing license holders, except lobster apprentices, of the Monhegan Island Lobster Conservation Area must report each year. With the exception of lobster and crab fishing license holders of the Monhegan Island Lobster Conservation Area, no individual can be selected to report in two consecutive years.

Any person that holds a Class I, II, or III, student or noncommercial lobster and crab fishing license issued under 12 M.R.S §6421(A, B, C, E, F and G) and is selected for reporting must report trip level fishing activity on forms supplied by the Department. The following data elements must be reported to the DMR on approved paper forms or through approved electronic reporting mechanisms:

1. Harvester name (as it appears on the harvesting license) and license number
2. Boat name and hull ID
3. Designate negative report period if no harvesting activity occurred
4. Date fished
5. Number of crew
6. Gear type and number of traps hauled
7. Set time (hours the gear soaked)
8. Total gear in water
9. Depth
10. Primary Statistical area, lobster zone and distance from shore (0-3 miles; 3-12 miles; or 12+ miles) 10-minute square where gear hauled this trip was fished

13. License of dealer sold to or if not sold to a licensed dealer, disposition of catch and whether catch was carried

Any person that holds a Commercial Pelagic and Anadromous Fishing License issued under 12 M.R.S. §6502-A and an IVR Herring Harvester Permit under that license must submit weekly catch reports via the National Marine Fisheries Service IVR call in system. Catches from fixed gear must be included in these reports. Any person that holds more than one Commercial Pelagic and Anadromous Fishing License with the IVR Herring Harvester Permit must report for each license they hold. Reports are required even if the herring caught during the week have not been landed. The report shall include the following data elements:

1. Reporting week number
2. Negative reporting period if no harvesting activity occurred
3. Total pounds kept
4. Total pounds discarded
5. Federal fishery management area where the fish were caught
The IVR reporting week begins Sunday at 0001 hrs (12:01 am) and ends Saturday at 2400 hrs (midnight). Weekly Atlantic herring catch reports must be submitted via the IVR system by midnight Tuesday for the previous week. The IVR call-in system weekly report does not exempt the license holder from their Commercial Pelagic and Anadromous Fishing license report (in section P above). Atlantic herring IVR reports are not required from Atlantic herring carrier vessels.
B. Permits and reporting

(1) Dealer Permit.

All herring dealers shall obtain a herring dealer’s permit as part of the Wholesale Seafood License issued by the Department of Marine Resources. There will be no additional charge for this permit. The Commissioner may require that dealer permit holders report volumes of herring bought and sold and other information as required.

All herring harvesters, except those who hold a Federal Limited Access Atlantic Herring permit, who catch 2,000 pounds or more Atlantic herring in any given week must possess an IVR a Herring Harvester Permit on their Commercial Pelagic and Anadromous Fishing License issued by the Department of Marine Resources. For purposes of this section only, a week is defined as beginning on Sunday at 0001 hrs (12:01 am) and ending Saturday at 2400 hrs (midnight). There will be no additional charge for this permit.
