

Maine FFA State Convention Discussion Meet – 2017

Questions:

- (1) What rules for immigration into the U.S. would you suggest to help ensure enough labor for American agriculture?
- (2) Natural Resources are often managed by government agencies. What role do you believe farmers and ranchers should play in managing these resources?
- (3) How can farmers and ranchers deal with the use of unmanned aerial vehicles (drones) that may negatively impact their farm if used to tarnish their farm's reputation?
- (4) What tax policies should be adopted that could benefit and protect American agriculture?
- (5) How can we help consumers better understand labels on food in order to know the quality of food and feel confident that it is safe?
