

Annual Briefing

2024-25 BARR Schools in Maine

Project Overview

The 2024-25 school year marked the second year of BARR statewide implementation in Maine. In total, 94 schools implemented the BARR model across 14 counties. Since 2010, BARR has served 120 schools in 50 school districts, which means 39,000 students and 2,667 teachers have benefited from the positive school culture and student achievement outcomes BARR produces in each school.

School Breakdown

The 2024-25 cohort of Maine schools range in grade levels, BARR implementation level, and percentage of students receiving Free/Reduced Price Lunch (F/RPL).

- **Year 1:** 30 schools
- **Year 2:** 49 schools
- **Thrive (Year 4+):** 15 schools
- **Elementary:** 43 school
- **Secondary:** 51 schools
- **Average F/RPL rate:** 41%

Outcomes¹

In 2024-25, **100% of BARR schools made progress** in one of three areas: 1) Academics, 2) Attendance, and 3) Behavior.

- 85% of schools made progress in academics
- 61% of schools made progress in attendance
- 30% of schools made progress in behavior

At the end of the 2024-25 school year, 90 schools persisted in their BARR implementation for the next school year. As a result, more comprehensive year-end data is available to report on for these 90 Maine schools. In fact, positive outcomes in failure rate, chronic absenteeism, and behavior emerge from this **school-provided data**. Of the schools that reported progress, schools saw:

- **A 34% average percent decrease** in failure rates
- 72% of schools **hit a 90% or above attendance rate**
- **A 45% average percent decrease** in behavior referrals

Once the 2024-25 state ESSA Dashboard data becomes available, it will be possible to analyze the performance of this cohort of Maine schools on outcomes such as chronic absenteeism and graduation rates.

¹ Percent Growth Formula = $\frac{\text{New Value} - \text{Original Value}}{\text{Original Value}} \times 100$
