

Division of School Facilities

Volume 9 Issue 2

April 2018

Major Capital School Construction

The scoring process for the Major Capital Improvement Program is close to completion for the 75 schools visited during the Fall of 2017. A Proposed Priority List will be presented to the State Board of Education at its June 13, 2018 meeting. The acceptance of that list will initiate a 30 day appeal period. Once the State Board has taken action after the scheduled meeting date, the Major Capital Improvement Program priority list will be posted on the Department's website at: <http://www.maine.gov/doe/facilities/construction/index.html>.

Facilities

The annual School Facilities Conference will be June 27 and 28, 2018 at Waterville High School. School facilities and custodial staff attend free and pre-registration is required. Details about the conference can be found at this website: <http://www.epmamaine.com/index.html>.

Maintenance

Springtime means increased rain and snow runoff on school grounds which can lead to water issues in basements. While there are many things that contribute to keeping groundwater and contaminants out of basements, one issue can be landscape drainage. Please check your site drainage areas to remove obstructions during springtime maintenance.
