~~The State Controller shall, at the close of each fiscal year, transfer 16% of the Unappropriated Surplus of the General Fund to the Reserve for General Fund Operating Capital until a maximum of \$50,000,000 is achieved. The State Controller is further authorized may, at the close of each fiscal year, to transfer from the Unappropriated Surplus of the General Fund to the Loan Insurance Reserve amounts as may be available from time to time, up to an amount of \$1,000,000 per year after the transfers have been made pursuant to section 1507. Any balance in the Loan Insurance Reserve is appropriated for this purpose.~~

CHAPTER 142
MAINE BUDGET STABILIZATION FUND

§1531. Definitions

As used in this chapter, unless the context otherwise indicates, the following terms have the following meanings.

1. Average population growth. "Average population growth" means the average for the prior 10 calendar years, ending with the most recent calendar year for which data is available, of the percent change in population from July 1st of each year and estimated by the United States Department of Commerce, Bureau of Census as adjusted and maintained by the Executive Department, State Planning Office.

2. Average real personal income growth. "Average real personal income growth" means the average for the prior 10 calendar years, ending with the most recent calendar year for which data is available, of the percent change in personal income in this State, as estimated by the United States Department of Commerce, Bureau of Economic Analysis, less the percent change in the Consumer Price Index for the calendar year. For purposes of this subsection, "Consumer Price Index" has the same meaning as in Title 36, section 5402, subsection 1.

3. Baseline General Fund revenue. "Baseline General Fund revenue" means the recommended General Fund revenue forecast reported by the Revenue Forecasting Committee in its December 1st report of even-numbered years, increased by the estimated amount of net General Fund revenue decrease, if any, for all enacted changes reducing state and local tax burden included in that forecast.

4. Biennial base year appropriation. "Biennial base year appropriation" means:

A. For the 2006-2007 biennium, the General Fund appropriation enacted for fiscal year 2004-05 as of December 1, 2004; and

B. For subsequent fiscal years, the amount of the General Fund appropriation limitation for the current year as of December 1st of even-numbered years.

5. Commissioner. "Commissioner" means the Commissioner of Administrative and Financial Services.

6. Forecasted inflation. "Forecasted inflation" means the average amount of change of the Consumer Price Index for the calendar years that are part of the ensuing biennium forecasted by the Consensus Economic Forecasting Commission in its November 1st report of even-numbered years.

7. General Fund revenue shortfall. "General Fund revenue shortfall" means the amount by which the General Fund appropriation limitation established by section 1534 exceeds baseline General Fund revenue and other available resources in each state fiscal year.

8. Stabilization fund. "Stabilization fund" means the Maine Budget Stabilization Fund established in this chapter.

9. State and local tax burden. "State and local tax burden" means the total amount of state and local taxes paid by Maine residents, per \$1,000 of income, as determined annually by the State Tax Assessor based on data from the United States Department of Commerce, Bureau of Census and Bureau of Economic Analysis.

§1532. Maine Budget Stabilization Fund

1. Generally; stabilization fund established. The Maine Budget Stabilization Fund is hereby established. Amounts in the stabilization fund may not exceed 12% of total General Fund revenues in the immediately preceding state fiscal year and, except as provided by section 1533, may not be reduced below 1% of total General Fund revenue in the immediately preceding state fiscal year. For the purposes of this subsection, at the close of a fiscal year, "immediately preceding state fiscal year" means the fiscal year that is being closed.

2. Expenditures from fund. Except as otherwise provided in this section, amounts in the stabilization fund may be expended only to offset a General Fund revenue shortfall.

3. Fund to be nonlapsing. The balance of the stabilization fund may not lapse but must be carried forward to carry out the purposes of this chapter.

4. Investment of funds. The money in the stabilization fund may be invested as provided by law with the earnings credited to the stabilization fund.

5. Investment proceeds; exception. At the close of every month during which the stabilization fund is at the 12% limitation described in subsection 1, the State Controller shall transfer from the General Fund to the Retirement Allowance Fund established in section 17251 an amount equal to the investment earnings that otherwise would have been credited to the stabilization fund.

6. Death benefits. The Governor shall allocate funds from the stabilization fund as needed to pay benefits due pursuant to Title 25, chapter 195-A. Allocations may be made upon written request of the Chief of the State Police, the State Fire Marshal or the Director of Maine Emergency Medical Services and after consultation with the State Budget Officer.

§1533. Declaration of budget emergency

If the Legislature has adjourned sine die prior to the close of a fiscal year and the commissioner has provided notification as required by section 1668 that indicates that available General Fund resources will not be sufficient to meet General Fund expenditures, the commissioner may declare a budget emergency. At the close of the fiscal year, the State

Controller may transfer from the available balance in the stabilization fund to the General Fund Unappropriated Surplus up to the amount necessary to increase total General Fund resources for that fiscal year to be equal to General Fund expenditures. For the purposes of this section, the Governor may reduce the stabilization fund below the 1% minimum threshold established by section 1532. The Governor shall inform the Legislative Council and the joint standing committee of the Legislature having jurisdiction over appropriations and financial affairs immediately upon such transfers from the stabilization fund.

§1534. General Fund appropriation limitation

1. Establishment of General Fund appropriation limitation. As of December 1st of each even-numbered year, there must be established a General Fund appropriation limit for the ensuing biennium. The General Fund appropriation limit applies to all General Fund appropriations, except that the additional cost for essential programs and services for kindergarten to grade 12 education under Title 20-A, chapter 606-B over the fiscal year 2004-05 appropriation for general purpose aid for local schools is excluded from the General Fund appropriation limitation until the state share of that cost reaches 55% of the total state and local cost.

A. For the first fiscal year of the biennium, the General Fund appropriation limitation is equal to the biennial base year appropriation multiplied by one plus the growth limitation factor in subsection 2.

B. For the 2nd year of the biennium, the General Fund appropriation limit is the General Fund appropriation limitation of the first year of the biennium multiplied by one plus the growth limitation factor in subsection 2.

2. Growth limitation factor. The growth limitation factor is calculated as follows.

A. For fiscal years when the State Tax Assessor has determined that the state and local tax burden ranks in the highest 1/3 of all states, the growth limitation factor is average real personal income growth, but no more than 2.75%, plus average population growth.

B. For fiscal years when the state and local tax burden ranks in the middle 1/3 of all states, as determined by the State Tax Assessor, the growth limitation factor is average real personal income growth plus forecasted inflation plus average population growth.

3. Exceeding General Fund appropriation limitation; extraordinary circumstances. The General Fund appropriation limitation established in subsection 1 may be exceeded for extraordinary circumstances only under the following circumstances.

A. The extraordinary circumstances must be circumstances outside the control of the Legislature, including:

(1) Catastrophic events such as natural disaster, terrorism, fire, war and riot;

(2) Unfunded or underfunded state or federal mandates;

- (3) Citizens' initiatives or other referenda;
- (4) Court orders or decrees; or
- (5) Loss of federal funding.

Extraordinary circumstances do not include changes in economic conditions, revenue shortfalls, increases in salaries or benefits, new programs or program expansions that go beyond existing program criteria and operation.

B. The appropriation limitation in subsection 1 may be exceeded only by a vote of both Houses of the Legislature in a separate measure that identifies the extraordinary circumstance and the intent of the Legislature to exceed the appropriation limitation.

C. Exceeding the appropriation limitation established in subsection 1 permits appropriations to exceed the appropriation limitation only for the period necessary to address the extraordinary circumstance and does not increase the base for purposes of calculating the appropriation limitation for future years.

4. Increase in appropriation limitation. The appropriation limitation established in subsection 1 may be increased for other purposes only by a vote of both Houses of the Legislature in a separate measure that identifies the intent of the Legislature to exceed the appropriation limitation.

§1535. General Fund transfers to stabilization fund

Baseline General Fund revenue, as recommended by the Revenue Forecasting Commission and authorized in accordance with chapter 151-B, and other available budgeted General Fund resources that exceed the General Fund appropriation limitation established by section 1534 must be transferred to the stabilization fund. The State Controller, at the close of each fiscal year, shall transfer the available balance remaining in the General Fund to the stabilization fund after all required deductions of appropriations, budgeted financial commitments and other adjustments considered necessary by the State Controller.

§1536. Excess General Fund revenues

1. First priority reserve. The State Controller shall, as the first priority at the close of each fiscal year, reserve from the unappropriated surplus of the General Fund an amount equal to the excess of total baseline General Fund revenue received over accepted estimates in that fiscal year and transfer that amount at the beginning of the next fiscal year as follows:

- A. Thirty-two percent to the stabilization fund;
- B. Thirty-two percent to the Retirement Allowance Fund established in section 17251; and
- C. Sixteen percent to the Reserve for General Fund Operating Capital.

2. Additional transfer. At the close of each fiscal year, the State Controller shall transfer from the unappropriated surplus of the General Fund to the stabilization fund an amount equal to the balance remaining of the excess of total General Fund revenue received over accepted estimates in that fiscal year that would have been transferred to the Reserve for General Fund

Operating Capital pursuant to paragraph C had the Reserve for General Fund Operating Capital not been at its statutory limit of \$50,000,000.

3. Exceptions; stabilization fund at limit. If the stabilization fund is at its limit of 12% of General Fund revenue of the immediately preceding year, then amounts that would otherwise have been transferred to the stabilization fund pursuant to subsections 1 and 2 must be transferred to the Tax Relief Fund for Maine Residents established in section 1518-A.

Sec. A-6. 5 MRSA §1664, last ¶, as enacted by PL 2003, c. 451, Pt. X, §8, is amended to read:

~~The total General Fund appropriation for each fiscal year of the biennium in the Governor's budget submission to the Legislature may not exceed the General Fund appropriation of the previous fiscal year multiplied by one plus the average real personal income growth rate, as defined in section 1665, subsection 1, plus the average forecasted inflation rate limitation established in section 1534. For purposes of this paragraph, "average forecasted inflation rate" means the average forecasted change in the Consumer Price Index underlying the revenue projections developed by the Revenue Forecasting Committee pursuant to chapter 151-B. This appropriation limitation may be exceeded only by the amount of the additional costs or the lost federal revenue from the following exceptional circumstances: unfunded or under-funded new federal mandates; losses in federal revenues or other revenue sources; citizens' initiatives or referenda that require increased state spending; court orders or decrees that require additional state resources to comply with the orders or decrees; and sudden or significant increases in demand for existing state services that are not the result of legislative changes that increased eligibility or increased benefits. The Governor may designate exceptional circumstances that are not explicitly defined in this paragraph but meet the intent of this paragraph. For purposes of this paragraph, "exceptional circumstances" means an unforeseen condition or conditions over which the Governor and the Legislature have little or no control. Exceptional circumstances do not apply to new programs or program expansions that go beyond existing program criteria and operation.~~

Sec. A-7. 5 MRSA §1665, sub-§1, as amended by PL 2003, c. 451, Pt. X, §9, is further amended to read:

1. Expenditure and appropriation requirements. On or before September 1st of the even-numbered years, all departments and other agencies of the State Government and corporations and associations receiving or desiring to receive state funds under the provisions of law shall prepare, in the manner prescribed by and on blanks furnished them by the State Budget Officer, and submit to the officer estimates of their expenditure and appropriation requirements for each fiscal year of the ensuing biennium contrasted with the corresponding figures of the last completed fiscal year and the estimated figures for the current fiscal year. The total General Fund appropriation requests submitted by each department and agency for each fiscal year may not exceed the General Fund appropriation of the previous fiscal year multiplied by one plus the average real personal income growth rate or 2.75%, whichever is less. For purposes of this subsection, "average real personal income growth rate" means the average for the prior 10 calendar years, ending with the most recent calendar year for which data is available, of the percent change in personal income in this State for a calendar year, as estimated by the United

States Department of Commerce, Bureau of Economic Analysis, less the percent change in the Consumer Price Index for that calendar year. For purposes of this subsection, "Consumer Price Index" has the same meaning as in Title 36, section 5402, subsection 1. The expenditure estimates ~~shall~~ must be classified to set forth the data by funds, organization units, character and objects of expenditure. The organization units may be subclassified by functions and activities, or in any other manner, at the discretion of the State Budget Officer.

All departments and other agencies receiving or desiring to receive state funds from the Highway Fund shall submit to the officer estimates of their expenditure and appropriation requirements for each fiscal year of the ensuing biennium that do not exceed the Highway Fund appropriation of the previous fiscal year multiplied by one plus the average real personal income growth rate or 2.75%, whichever is less. The Highway Fund highway and bridge improvement accounts are exempt from this spending limitation.

Sec. A-8. 5 MRSA §1710-F, sub-§4 is enacted to read:

4. Appropriation limitation. The committee shall make all determinations necessary to make the appropriation limitation calculations required under chapter 142.

Sec. A-9. 5 MRSA §13063-C, sub-§4, ¶B, as amended by PL 2003, c. 451, Pt. X, §10, is further amended to read:

Sec. A-10. 5 MRSA §17253, sub-§3, as enacted by PL 1995, c. 464, §15, is amended to read:

3. Components of unfunded liability contribution. The annual valuation report prepared by the actuary in accordance with section 17107 must include identification of the impact on the employer contribution rate of any excess General Fund revenues transferred to the Retirement Allowance Fund pursuant to section ~~4517~~ 1532.

Sec. A-11. 5 MRSA §22001, sub-§13, as enacted by PL 2001, c. 439, Pt. T, §5, is amended to read:

13. Trust fund. "Trust fund" means the Baxter Compensation Authority Other Special Revenue Fund account authorized pursuant to former section 1513, subsection 1-T, ~~or its successor.~~

Sec. A-12. 25 MRSA §1612, sub-§7, as amended by PL 2003, c. 451, Pt. X, §13, is further amended to read:

Sec. A-14. Application of appropriation limit; 2006-2007 biennium. This Part applies to fiscal biennia beginning on or after July 1, 2005. The appropriation limit for the 2006-2007 biennium must be established based on the status of the factors for calculating the growth limitations as of December 1, 2004.

PART B

Sec. B-1. 30-A MRSA §706-A is enacted to read:

§706-A. Limitation on county assessments

1. Definitions. As used in this section, unless the context otherwise indicates, the following terms have the following meanings.

A. "Average real personal income growth" means the average for the prior 10 calendar years, ending with the most recent calendar year for which data is available, of the percent change in personal income in this State, as estimated by the United States Department of Commerce, Bureau of Economic Analysis, less the percent change in the Consumer Price Index for the calendar year. For purposes of this subsection, "Consumer Price Index" has the same meaning as in Title 36, section 5402, subsection 1.

B. "County assessment" means total annual county appropriations reduced by all resources available to fund those appropriations other than the county tax.

C. "Forecasted inflation" means the average amount of change of the Consumer Price Index for the calendar years that are part of the ensuing biennium forecasted by the Consensus Economic Forecasting Commission in its November 1st report of even-number years.

D. "Property growth factor" means the percentage equivalent to a fraction established by a county, whose denominator is the total valuation of all municipalities, plantations and unorganized territory in the county, and whose numerator is the amount of increase in the assessed valuation of any real or personal property in those jurisdictions that became subject to taxation for the first time, or taxed as a separate parcel for the first time for the most recent property tax year for which information is available, or that has had an increase in its assessed valuation over the prior year's valuation as a result of improvements to or expansion of the property.

E. "State and local tax burden" means the total amount of state and local taxes paid by Maine residents per \$1,000 of income, as determined annually by the State Tax Assessor based on data from the United States Department of Commerce, Census Bureau and Bureau of Economic Analysis.

2. County assessment limit. Except as otherwise provided in this section, a county may not in any year adopt a county assessment that exceeds the county assessment limit established in this subsection.

A. The county assessment limit for the first fiscal year for which this section is effective is the county assessment for the county for the immediately preceding fiscal year multiplied by one plus the growth limitation factor pursuant to subsection 3.

B. The county assessment limit for subsequent fiscal years is the county assessment limit for the preceding year multiplied by the growth limitation factor pursuant to subsection 3.

C. If a previous year's county assessment reflects the effect of extraordinary, nonrecurring events, the county may submit a written notice to the State Tax Assessor requesting an adjustment in its county assessment limit.

3. Growth limitation factor. The growth limitation factor is calculated as follows.

A. For fiscal years when the State Tax Assessor has determined that the state and local tax burden ranks in the highest 1/3 of all states, the growth limitation factor is average real personal income growth but no more than 2.75%, plus the property growth factor.

B. For fiscal years when the state and local tax burden ranks in the middle 1/3 of all states, as determined by the State Tax Assessor, the growth limitation factor is the average real personal income growth plus forecasted inflation plus the property growth factor.

4. Adjustment for new state funding. If the State provides net new funding to a county for existing services funded in whole or in part by the county assessment, other than required state mandate funds pursuant to section 5685 that do not displace current county assessment expenditures, the county shall lower its county assessment limit in that year in an amount equal to the net new funds. For purposes of this subsection, "net new funds" means the amount of funds received by the county from the State in that fiscal year, with respect to services funded in whole or in part by the county assessment, less the product of the following: the amount of such funds received in the prior fiscal year multiplied by the growth limitation factor described in subsection 3. If a county receives net new funds in any fiscal year for which its county assessment limit has not been adjusted as provided in this subsection, the county shall adjust its county assessment limit in the following year in an amount equal to the net new funds.

5. Exceeding county assessment limit; extraordinary circumstances. The county assessment limit established in subsection 2 may be exceeded for extraordinary circumstances only under the following circumstances.

A. The extraordinary circumstances must be circumstances outside the control of the county budget authority, including:

- (1) Catastrophic events such as natural disaster, terrorism, fire, war or riot;
- (2) Unfunded or underfunded state or federal mandates;

- (3) Citizens' initiatives or other referenda;
- (4) Court orders or decrees; or
- (5) Loss of state or federal funding.

Extraordinary circumstances do not include changes in economic conditions, revenue shortfalls, increases in salaries or benefits, new programs or program expansions that go beyond existing program criteria and operation.

B. The county assessment limit may be exceeded only as provided in subsection 7.

C. Exceeding the county assessment limit established in subsection 2 permits the county assessment to exceed the county assessment limit only for the year in which the extraordinary circumstance occurs and does not increase the base for purposes of calculating the county assessment limit for future years.

6. Increase in county assessment limit. The county assessment limit established in subsection 2 may be increased for other purposes only as provided in subsection 7.

7. Process for exceeding county assessment limit. A county may exceed or increase the county assessment limit only if approved by a vote of a majority of all the members of both the county budget committee or county budget advisory committee and the county commissioners.

Unless a county charter otherwise provides or prohibits a petition and referendum process, if a written petition, signed by at least 10% of the number of voters voting in the last gubernatorial election in the county, requesting a vote on the question of exceeding the county assessment limit is submitted to the county commissioners within 30 days of the commissioners' vote pursuant to this subsection, the article voted on by the commissioners must be submitted to the legal voters in the next regular election or a special election called for that purpose. The election must be called, advertised and conducted according to the law relating to municipal elections, except that the registrar of voters is not required to prepare or the clerk to post a new list of voters. For the purpose of registration of voters, the registrar of voters must be in session the secular day preceding the election. The voters shall indicate by a cross or check mark placed against the word "Yes" or "No" their opinion on the article. The results must be declared by the county commissioners and entered upon the county records.

8. Treatment of surplus; reserves. Any county tax revenues collected by a county in any fiscal year in excess of its county assessment limit, as determined by a final audited accounting, must be transferred to a county tax relief fund, which each county must establish, and used to reduce county assessments in subsequent fiscal years. Nothing in this subsection limits the ability of a county to maintain adequate reserves.

9. Enforcement. If a county adopts a county assessment in violation of this section, the State Tax Assessor may require the county to adjust its county assessment downward in an amount equal to the illegal county assessment and impose such other penalties as the Legislature may provide.

Sec. B-2. Application. This Part applies to county fiscal years that begin on or after July 1, 2005.

Sec. B-3. Retroactivity. This Part applies retroactively to July 1, 2005.

PART C

Sec. C-1. 30-A MRSA §5721-A is enacted to read:

§5721-A. Limitation on municipal property tax levy

1. Definitions. As used in this section, unless the context otherwise indicates, the following terms have the following meanings.

A. "Average real personal income growth" means the average for the prior 10 calendar years, ending with the most recent calendar year for which data is available, of the percent change in personal income in this State, as estimated by the United States Department of Commerce, Bureau of Economic Analysis, less the percent change in the Consumer Price Index for the calendar year. For purposes of this subsection, "Consumer Price Index" has the same meaning as in Title 36, section 5402, subsection 1.

B. "Forecasted inflation" means the average amount of change of the Consumer Price Index for the calendar years that are part of the ensuing biennium forecasted by the Consensus Economic Forecasting Commission in its November 1st report of even-number years.

C. "Property growth factor" means the percentage equivalent to a fraction established by a municipality, whose denominator is the total valuation of the municipality, and whose numerator is the amount of increase in the assessed valuation of any real or personal property in the municipality that became subject to taxation for the first time, or taxed as a separate parcel for the first time for the most recent property tax year for which information is available, or that has had an increase in its assessed valuation over the prior year's valuation as a result of improvements to or expansion of the property.

D. "Property tax levy" means the total annual municipal appropriations, excluding assessments properly issued by a county of which the municipality is a member and amounts governed by and appropriated in accordance with Title 20-A, chapter 606-B, appropriated as the local share of the cost of essential programs and services under Title 20-A, chapter 606-B, to pay assessments properly issued by a school administrative unit or tuition for students or amounts attributable to a tax increment financing district agreement or similar special tax district, reduced by all resources available to fund those appropriations other than the property tax.

E. "State and local tax burden" means the total amount of state and local taxes paid by Maine residents per \$1,000 of income, as determined annually by the State Tax Assessor based on data from the United States Department of Commerce, Census Bureau and Bureau of Economic Analysis.

2. Property tax levy limit. Except as otherwise provided in this section, a municipality may not in any year adopt a property tax levy that exceeds the property tax levy limit established in this subsection.

A. The property tax levy limit for the first fiscal year for which this section is effective is the property tax levy for the municipality for the immediately preceding fiscal year multiplied by one plus the growth limitation factor pursuant to subsection 3.

B. The property tax levy limit for subsequent fiscal years is the property tax levy limit for the preceding year multiplied by the growth limitation factor pursuant to subsection 3.

C. If a previous year's property tax levy reflects the effect of extraordinary, nonrecurring events, the municipality may submit a written notice to the State Tax Assessor requesting an adjustment in its property tax levy limit.

3. Growth limitation factor. The growth limitation factor is calculated as follows.

A. For fiscal years when the State Tax Assessor has determined that the state and local tax burden ranks in the highest 1/3 of all states, the growth limitation factor is average real personal income growth but no more than 2.75%, plus the property growth factor.

B. For fiscal years when the state and local tax burden ranks in the middle 1/3 of all states, as determined by the State Tax Assessor, the growth limitation factor is the average real personal income growth plus forecasted inflation plus the property growth factor.

4. Adjustment for new state funding. If the State provides net new funding to a municipality for existing services funded in whole or in part by the property tax levy, other than required state mandate funds pursuant to section 5685 that do not displace current property tax expenditures, the municipality shall lower its property tax levy limit in that year in an amount equal to the net new funds. For purposes of this subsection, "net new funds" means the amount of funds received by the municipality from the State in that fiscal year, with respect to services funded in whole or in part by the property tax levy, less the product of the following: the amount of such funds received in the prior fiscal year multiplied by the growth limitation factor described in subsection 3. If a municipality receives net new funds in any fiscal year for which its property tax levy limit has not been adjusted as provided in this subsection, the municipality shall adjust its property tax levy limit in the following year in an amount equal to the net new funds.

5. Exceeding property tax levy limit; extraordinary circumstances. The property tax levy limit established in subsection 2 may be exceeded for extraordinary circumstances only under the following circumstances.

A. The extraordinary circumstances must be circumstances outside the control of the municipal legislative body, including:

- (1) Catastrophic events such as natural disaster, terrorism, fire, war or riot;
- (2) Unfunded or underfunded state or federal mandates;
- (3) Citizens' initiatives or other referenda;
- (4) Court orders or decrees; or
- (5) Loss of state or federal funding.

Extraordinary circumstances do not include changes in economic conditions, revenue shortfalls, increases in salaries or benefits, new programs or program expansions that go beyond existing program criteria and operation.

B. The property tax levy limit may be exceeded only as provided in subsection 7.

C. Exceeding the property tax levy limit established in subsection 2 permits the property tax levy to exceed the property tax levy limit only for the year in which the extraordinary circumstance occurs and does not increase the base for purposes of calculating the property tax levy limit for future years.

6. Increase in property tax levy limit. The property tax levy limit established in subsection 2 may be increased for other purposes only as provided in subsection 7.

7. Process for exceeding property tax levy limit. A municipality may exceed or increase the property tax levy limit only by the following means.

A. If the municipal budget is adopted by town meeting or by referendum, the property tax levy limit may be exceeded by the same process that applies to adoption of the municipal budget except that the vote must be by written ballot on a separate article that specifically identifies the intent to exceed the property tax levy limit.

B. If the municipal budget is adopted by a town council or city council, the property tax levy limit may be exceeded only by a majority vote of all the elected members of the town council or city council on a separate article that specifically identifies the intent to exceed the property tax levy limit. Unless a municipal charter otherwise provides or prohibits a petition and referendum process, if a written petition, signed by at least 10% of the number of voters voting in the last gubernatorial election in the municipality, requesting a vote on the question of exceeding the property tax levy limit is submitted to the municipal officers within 30 days of the council's vote pursuant to this paragraph, the article voted on by the council must be submitted to the legal voters in the next regular election or a special election called for that purpose. The election must be called, advertised and conducted according to the law relating to municipal elections, except that the registrar of voters is not required to prepare or the clerk to post a new list of voters. For the purpose of registration of voters, the registrar of voters must be in session the secular day preceding the election. The voters shall indicate by a cross or check mark placed against the word "Yes" or "No" their opinion on the article. The results must be declared by the municipal officers and entered upon the municipal records.

8. Treatment of surplus; reserves. Any property tax revenues collected by a municipality in any fiscal year in excess of its property tax levy limit, as determined by a final audited accounting, must be transferred to a property tax relief fund, which each municipality must establish, and used to reduce property tax levies in subsequent fiscal years. Nothing in this subsection limits the ability of a municipality to maintain adequate reserves pursuant to section 5801.

9. Fractional divisions. A municipality may, consistent with Title 36, section 710, exceed its property tax levy limit in such reasonable amount as necessary to avoid fractional divisions.

10. Enforcement. If a municipality adopts a property tax levy in violation of this section, the State Tax Assessor may require the municipality to adjust its property tax levy downward in an amount equal to the illegal property tax levy and impose such other penalties as the Legislature may provide.

Sec. C-2. 30-A MRSA §7102, as enacted by PL 1987, c. 737, Pt. A, §2 and Pt. C, §106 and amended by PL 1989, c. 6; c. 9, §2; and c. 104, Pt. C, §§8 and 10, is further amended by adding at the end a new paragraph to read:

Except as otherwise provided in this subsection, for each fiscal year, the total cost of the components of essential programs and services may not exceed the prior fiscal year's costs multiplied by one plus the average real personal income growth rate as defined in Title 5, section 1665, subsection 1, except that in no case may that rate exceed 2.75%. For fiscal years commencing after the state tax burden ranks in the middle 1/3 of all states, as calculated and certified by the State Tax Assessor, the total cost of the components of essential programs and services may not exceed the prior fiscal year's costs multiplied by one plus the average real personal income growth rate as defined in Title 5, section 1665, subsection 1. The Legislature, by an affirmative vote of each House, may exceed the limitations on increases in the total cost of the components of essential programs and services provided in this subsection, as long as that vote is taken upon legislation stating that it is the Legislature's intent to override the limitation for that fiscal year. The state contribution to the cost of the components of essential programs and services, exclusive of federal funds that are provided and accounted for in the cost of the components of essential programs and services, must be made in accordance with this subsection:

A. The level of the state share of funding attributable to the cost of the components of essential programs and services must be at least 50% of eligible state and local General Fund education costs statewide, no later than fiscal year ~~2007-08~~ 2006-07; and

B. By fiscal year ~~2009-10~~ 2008-09 the state share of the total cost of funding

public education from kindergarten to grade 12, as described by essential programs and services, must be 55%. Beginning in fiscal year 2005-06 and in each fiscal year until fiscal year ~~2009-10~~ 2008-09, the state share of essential programs and services described costs must increase toward the 55% level required in fiscal year ~~2009-10~~ 2008-09.

Beginning in fiscal year 2005-06 and in each fiscal year thereafter, the commissioner shall use the funding level determined in accordance with this section as the basis for a recommended funding level for the state share of the cost of the components of essential programs and services.

Sec. D-33. 20-A MRSA §15671, sub-§§2, 3, 4 and 6, as enacted by PL 2001, c. 660, §1, are amended to read:

2. Per-pupil rate amounts. A per-pupil guarantee rate represents ~~the an~~ amount of funds that is to be made available for each subsidizable pupil. ~~Three per-pupil guarantee amounts must be calculated, reflecting grade-level cost differences: one for kindergarten to grade 5, one for grades 6 to 8 and one for grades 9 to 12. These per-pupil guarantees must be modified as appropriate for special student populations. The per-pupil guarantee represents the annual cost of staffing and material resources that are appropriately allocated on a per-pupil basis. Categories of staffing and resources are as follows:~~ Per-pupil rates are determined pursuant to section 15676.

- ~~A. School personnel, including regular and special subject teachers, educational technicians, guidance, library, health services, school administration, support or clerical staff and substitute teachers;~~
- ~~B. Supplies and equipment;~~
- ~~C. Specialized services, including professional development, instructional leadership support, student assessment, technology and cocurricular and extracurricular programs; and~~
- ~~D. School administrative unit services, including system administration and operation and maintenance of plant.~~

3. Specialized student populations. In recognition that educational needs can be more costly for some student populations than for others, ~~modified per-pupil guarantee amounts or weighted pupil counts must be calculated for specialized student populations~~ special student populations are specifically addressed in sections 15675 and 15681-A, subsection 2. The specialized student populations to be addressed are:

- ~~A. Special education students;~~
- ~~B. Limited English proficiency students;~~
- ~~C. Economically disadvantaged students; and~~
- ~~D. Students in kindergarten to grade 2.~~

4. Educational cost components outside the per-pupil rate. A per-pupil guarantee rate is not a suitable method for allocation of all educational cost components. These components may include, but are not limited to, debt service, transportation, bus purchases, vocational education, small school adjustments, teacher educational attainment and longevity of service and

adjustments to general purpose aid. The funding methodology of these educational cost components must be established based on available research.

6. Targeted funds. Funds for technology, assessment and the costs of additional investments in educating children in kindergarten to grade 2 as described in section 15681 must be provided as targeted grants. School administrative units shall submit a plan for the use of these funds and shall receive funding based on approval of the plan by the commissioner.

Sec. D-34. 20-A MRSA §15671, sub-§7, as amended by PL 2003, c. 712, §10, is further amended to read:

7. Transition; annual targets. To achieve the system of school funding based on essential programs and services required by this section, the following annual targets are established.

A. The base total calculated pursuant to section 15683, subsection 2 is subject to the following annual targets for the essential programs and services transition percentage, excluding program cost allocation, debt service allocation and adjustments, are as follows.

- (1) For fiscal year 2005-06, the target is 84%.
- (2) For fiscal year 2006-07, the target is ~~88%~~ 90%.
- (3) For fiscal year 2007-08, the target is ~~92%~~ 95%.
- (4) For fiscal year 2008-09 and succeeding years, the target is ~~96%~~ 100%.
- (5) ~~For fiscal year 2009-10 and succeeding years, the target is 100%.~~

B. The annual targets for the state share percentage of the statewide adjusted total cost of the components of essential programs and services are as follows.

- (1) For fiscal year 2005-06, the target is 52.6%.
- (2) For fiscal year 2006-07, the target is ~~52.6%~~ 53.86%.
- (3) For fiscal year 2007-08, the target is ~~53%~~ 54.44%.
- (4) For fiscal year 2008-09 and succeeding years, the target is ~~54%~~ 55%.
- (5) ~~For fiscal year 2009-10 and succeeding years, the target is 55%.~~

Sec. D-35. 20-A MRSA §15671-A, as enacted by PL 2003, c. 712, §11, is amended to read:

§15671-A. Property tax contribution to public education

1. Definitions. As used in this section, unless the context otherwise indicates, the following terms have the following meanings.

A. "Funding public education from kindergarten to grade 12" means providing the cost of funding the essential programs and services described in this chapter ~~plus,~~ including the total allocations for program cost other subsidizable costs, debt service costs and adjustments.

B. "Local cost share expectation" means the maximum amount of money for funding public education from kindergarten to grade 12 that may be derived from

property tax for the required local contribution established in section 15688, subsection ~~3-3-A~~.

C. "Statewide total local share" means the local share, calculated on a statewide basis, of the statewide total cost of the components of essential programs and services as adjusted pursuant to section 15671, subsection 7 to reflect the application of the transition targets to the base total component.

D. "Statewide valuation" means the certified total state valuation for the year prior to the most recently certified total state valuation for all municipalities statewide.

2. Local cost share expectation. ~~The local cost share expectation is established as follows.~~ This subsection establishes full-value education mill rates that limit a municipality's required local contribution pursuant to section 15688, subsection 3-A. The full-value mill rates represent rates that, if applied to the statewide valuation, would produce the statewide total local share. Notwithstanding any other provision of law, with respect to the assessment of any property taxes for property tax years beginning on or after April 1, 2005, a municipality's required local contribution determined pursuant to section 15688, subsection 3-A establishes the local cost share expectation for that municipality.

~~A. Notwithstanding any other provision of law, with respect to the assessment of any property taxes for property tax years beginning on or after April 1, 2005, this subsection establishes the local cost share expectation that may be assessed on the value of property for the purpose of funding public education from kindergarten to grade 12. The commissioner shall annually by February 1st notify each school administrative unit of its local cost share expectation. Each superintendent shall report to the municipal officers whenever a school administrative unit is notified of the local cost share expectation or a change made in the local cost share expectation resulting from an adjustment.~~

B. For property tax years beginning on or after April 1, 2005, the commissioner shall calculate the full-value education mill rate that is required to raise the ~~statewide total of the local cost share expectation.~~ The full-value education mill rate is calculated for each fiscal year by dividing the applicable tax year percentage of the projected cost of funding public education from kindergarten to grade 12 statewide total local share by the certified total state applicable statewide valuation for the year prior to the most recently certified total state valuation for all municipalities. The full-value education mill rate must decline over the period from fiscal year 2005-06 to fiscal year ~~2009-10~~ 2008-09 and may not exceed 9.0 mills in fiscal year 2005-06 and may not exceed 8.0 mills in fiscal year ~~2009-10~~ 2008-09. The full-value education mill rate must be applied according to section 15688, subsection ~~3-3-A~~, paragraph A to determine a municipality's local cost share expectation. Full-value education mill rates must be derived according to the following schedule.

(1) For the 2005 property tax year, the full-value education mill rate is the amount necessary to result in a 47.4% statewide total local share in fiscal year 2005-06.

(2) For the 2006 property tax year, the full-value education mill rate is the amount necessary to result in a 47.4% 46.14% statewide total local share

in fiscal year 2006-07.

(3) For the 2007 property tax year, the full-value education mill rate is the amount necessary to result in a ~~47.0%~~ 45.56% statewide total local share in fiscal year 2007-08.

(4) For the 2008 property tax year, the full-value education mill rate is the amount necessary to result in a ~~46.0%~~ 45.0% statewide total local share in fiscal year 2008-09.

~~(5) For the 2009 property tax year, the full-value education mill rate is the amount necessary to result in a 45.0% local share in fiscal year 2009-10.~~

3. Exceeding maximum local cost share expectations; separate article. Beginning with the 2005-2006 school budget, the legislative body of a school administrative unit may adopt ~~property tax rates~~ an additional local appropriation that ~~exceed~~ exceeds the local cost share expectation established by section 15688, subsection ~~3-3-A~~, paragraph A only if that action is approved in a separate article by a vote of the school administrative unit's legislative body through the same process that the school budget is approved in that school administrative unit and in accordance with section 15690. If that additional appropriation causes the school administrative unit to exceed the maximum state and local spending target described in subsection 4, the requirements of subsection 5 apply.

4. Maximum state and local spending target. The maximum state and local spending target for a school administrative unit is the sum of the following costs calculated by the commissioner for the unit:

- A. The base total calculated pursuant to section 15683, subsection 1 without the adjustment for transition targets under section 15671, subsection 7, paragraph A;
- B. Other subsidizable costs described in section 15681-A; and
- C. The debt service allocation pursuant to section 15683-A.

The commissioner shall annually notify each school administrative unit of its maximum state and local spending target.

5. Exceeding maximum state and local spending target. If the sum of a school administrative unit's required local contribution determined pursuant to section 15688, subsection 3-A plus the state contribution as calculated pursuant to section 15688, subsection 3-A, paragraph D plus any additional local amount proposed to be raised pursuant to section 15690, subsection 3 exceeds the school administrative unit's maximum state and local spending target established pursuant to subsection 4, the following provisions govern approval of that additional amount.

- A. The article approving the additional amount must conform to the requirements of section 15690, subsection 3, paragraph B. Notwithstanding section 1304, subsection 6; section 1701, subsection 7; Title 30-A, section 2528, subsection 5, or any other provision of law, municipal charter provision or ordinance, voter approval of the article, whether in town meeting, district meeting or other voting process established by law, municipal charter or ordinance, including, but not limited to, any vote on the article initiated by voter petition, must be by

referendum or written ballot.

B. In a municipality where the responsibility for final adoption of the school budget is vested by the municipal charter in a council, this paragraph applies, except that the petition and referendum provisions apply only if the municipal charter does not otherwise provide for or prohibit a petition and referendum process with respect to the matters described in this paragraph.

3. Additional costs. The per-pupil amounts not related to staffing, calculated in accordance with section 15680.

The EPS per-pupil rate is calculated on the basis of which schools students attend. For school administrative units that do not operate their own schools, the EPS per-pupil rate is calculated under section 15676-A.

Sec. D-40. 20-A MRSA §15676-A is enacted to read:

1. Definitions. For purposes of this section, the following terms have the following meanings.

A. "Receiving unit" means the school administrative unit to which students are sent by the sending unit.

B. "Receiving unit cost" means the amount arrived at by multiplying the receiving unit's EPS rate by the number of students sent to that unit by the sending unit.

C. "Sending unit" means the school administrative unit sending students to other school administrative units.

2. Calculation of EPS per-pupil rate. For school administrative units that do not operate certain types of schools, the commissioner shall calculate that unit's EPS per-pupil rate for each year as follows.

A. For units that do not operate elementary grade schools, the EPS per-pupil rate for elementary grades is calculated by multiplying the number of students sent by

the sending unit to an elementary grade receiving unit multiplied by the receiving unit's EPS per-pupil rate for elementary grades and the result divided by the number of students sent by the sending unit to that elementary grade receiving unit. If the sending unit sends students to more than one elementary grade receiving unit, then the elementary grade receiving unit cost for each student sent by the sending unit is added and the result divided by the total number of students sent to elementary grade receiving units by the sending unit. The result is the average elementary grade EPS per-pupil rate for the sending unit.

The EPS per-pupil rate for private schools approved for tuition purposes under chapter 117 is the statewide average EPS per-pupil rate for elementary grades. The elementary attending student count is the most recent October 1st count prior to the allocation year.

B. For units that do not operate secondary grade schools, the EPS per-pupil rate for secondary grades is calculated by multiplying the number of students sent by the sending unit to a secondary grade receiving unit multiplied by the receiving unit's EPS per-pupil rate for secondary grades and the result divided by the number of students sent by the sending unit to that secondary grade receiving unit. If the sending unit sends students to more than one secondary grade receiving unit, then the secondary grade receiving unit cost for each student sent by the sending unit is added and the result divided by the total number of students sent to secondary grade receiving units by the sending unit. The result is the average secondary grade EPS per-pupil rate for the sending unit.

The EPS per-pupil rate for private schools approved for tuition purposes under chapter 117 is the statewide average EPS per-pupil rate for secondary grades. The secondary attending student count is the most recent October 1st count prior to the allocation year.

Sec. D-41. 20-A MRSA §15678, sub-§5, ¶B, as enacted by PL 2003, c. 504, Pt. A, §6, is amended to read:

B. The amount, as determined by the commissioner, that equals the statewide percentage of salary costs that represents the statewide average benefit costs.

Sec. D-42. 20-A MRSA c. 606-C, headnote, as enacted by IB 2003, c. 2, §1, is repealed.

Sec. D-43. 20-A MRSA §15681, as enacted by IB 2003, c. 2, §1, is repealed.

For those school administrative units in which the annual December 1st child count for the most recent year is less than 15% of the school administrative unit's resident pupils as determined under section 15674, subsection 1, paragraph C, subparagraph (1), the special education child count percentage may not increase more than 0.5% in any given year, up to a maximum of 1.0% in any given 3-year period. For each special education student above the 15% maximum, the unit receives an additional weight of .38. In addition, each school administrative unit must receive additional funds:

- B. For high-cost in-district special education placements. Additional funds must be allocated for each student estimated to cost 3 times the statewide special education EPS per-pupil rate. The additional funds for each student must equal the amount by which that student's estimated costs exceed 3 times the statewide special education EPS per-pupil rate;
- C. For high-cost out-of-district special education placements. Additional funds must be allocated for each student estimated to cost 4 times the statewide special education EPS per-pupil rate. The additional funds for each student must equal the amount by which that student's estimated costs exceed 4 times the statewide special education EPS per-pupil rate; and

The commissioner shall develop an appeals procedure for calculated special education costs for school administrative units;

3. Transportation costs. For fiscal year 2005-06, the commissioner, using information provided by a statewide education policy research institute, shall establish a per-pupil transportation cost for each school administrative unit based on an analysis of the most recent year's reported transportation expenditures and a predicted per-pupil transportation cost based on the number of resident pupils, the number of miles of Class 1 to Class 5 roads in the school administrative unit and any approved adjustments. In fiscal year 2005-06 the established per-pupil transportation cost for each school administrative unit is the most recent year's reported transportation expenditures or predicted per-pupil transportation cost, plus 10%, whichever is lower. Beginning in fiscal year 2006-07, and for each subsequent fiscal year, the per-pupil transportation costs for each school administrative unit are its established costs for the most recent year adjusted by the Consumer Price Index or other comparable index. For fiscal years 2005-06 and 2006-07, in no case may the per-pupil transportation costs for a school administrative unit be less than 75% of the established costs for the most recent fiscal year. Every 3 years, the commissioner, using information provided by a statewide education policy research institute, shall examine and may adjust reported transportation expenditures and

predicted transportation costs. The commissioner shall develop an appeals procedure for established per-pupil transportation costs for school administrative units;

4. Vocational education costs. Vocational education costs in the base year adjusted to the year prior to the allocation year; and

5. Gifted and talented education costs. Gifted and talented education costs in the base year adjusted to the year prior to the allocation year.

Sec. D-45. 20-A MRSA §15682, as enacted by IB 2003, c. 2, §1, is repealed.

The regional adjustment must be based on the regional differences in teacher salary costs within labor market areas in the State, as computed by a statewide education policy research institute, and must be applied only to appropriate teacher salary and benefits costs as calculated under section 15678 and salary and benefit costs of other school-level staff who are not teachers as calculated under section 15679. Beginning in fiscal year 2006-07, and at least every 2 years thereafter, the commissioner, using information provided by a statewide education policy research institute, shall review the regional adjustment amounts under this section and shall submit any recommended changes to the state board for approval.

CHAPTER 608 **SCHOOL FINANCE ACT OF 2003**

§15751. Short title

This chapter may be known and cited as "the School Finance Act of 2003."

§15752. Mandated legislative appropriations for kindergarten to grade 12 education

In accordance with the phase-in schedule provided in chapter 606-B, beginning in fiscal year 2008-09, the Legislature each year shall provide at least 55% of the cost of the total allocation for kindergarten to grade 12 education from General Fund revenue sources.

For the purposes of this chapter, and until such time as the Legislature may implement an alternative school funding system, "total allocation" means the foundation allocation for a year, the debt service allocation for that year, the sum of all adjustments for that year and the total of the additional local appropriations for the prior year. In the event the Legislature implements an alternative school funding model that alters the meaning of the terms used in this Title or otherwise makes obsolete the system of allocations and local appropriations established by this Title, the term "total allocation" as it applies to the mandatory appropriation required by this section means the amount reasonably calculated as the equivalent of this definition.

§15753. Mandated legislative appropriations for special education

Except as provided in section 15689, subsection 1, but notwithstanding any other provision of chapter 606-B, the Legislature shall provide 100% of a school administrative unit's special education costs as calculated pursuant to section 15681-A, subsection 2.

For the purposes of the mandatory appropriation required by this section, and in accordance with the essential programs and services school funding allocation system established in chapter 606-B, the commissioner shall identify and provide in the commissioner's recommendation pursuant to section 15689-C the total special education costs required to be funded pursuant to this section. In addition to any appropriations required by section 15689-E, the Legislature shall appropriate and ensure the accurate distribution of the total amount identified by the commissioner, adjusted by the federal reimbursements for the costs of special education services mandated by federal or state law, rule or regulation that will be provided to the individual school administrative units for that same school year.

§15754. Fund for the Efficient Delivery of Educational Services

The Fund for the Efficient Delivery of Educational Services, referred to in this section as "the fund," is established as a dedicated nonlapsing account within the Department of Education. This section provides for the design, implementation, administration and use of the fund.

1. Source of funds; purpose. Funds for appropriations under this section must be appropriated in addition to the total amount annually appropriated for general purpose aid for local schools and must be placed into a single account. Beginning in fiscal year 2005-06 and in each succeeding fiscal year until fiscal year 2008-09, an amount calculated to be not greater than 2% of the total amount annually appropriated for general purpose aid for local schools must be dedicated to the fund and distributed from the fund to those school administrative units and municipalities that are able to demonstrate significant and sustainable savings in the cost of delivering educational services and improved student achievement through changes in governance, administrative structure or adopted policy that result in the creation of consolidated

school administrative units, broad-based purchasing alliances, enhanced regional delivery of educational services or collaborative school-municipal service delivery or service support systems.

Beginning in fiscal year 2005-06, the Legislature shall annually, prior to March 15th, enact legislation to allocate the following amounts calculated based on the amount appropriated for general purpose aid for local schools to the fund during each of the following fiscal years:

A. In fiscal year 2005-06, an amount equivalent to 0.83% of the total amount appropriated for general purpose aid for local schools;

B. In fiscal year 2006-07, an amount equivalent to 0.69% of the total amount appropriated for general purpose aid for local schools;

D. In fiscal year 2008-09, an amount equivalent to 2% of the total amount appropriated for general purpose aid for local schools.

Any balance remaining in the fund at the end of any fiscal year does not lapse and must be carried forward for the next fiscal year.

2. Administration; plan for implementation of the fund. The department shall administer the fund or may contract for services for administration of the fund. The commissioner, in consultation with the Executive Department, State Planning Office and the other agencies, organizations and individuals determined appropriate by the commissioner, shall establish an implementation plan for the fund that includes, but is not limited to, the following:

A. The establishment of criteria through which school administrative units and municipalities may demonstrate significant and sustainable savings in the cost of delivering educational services and improved student achievement through changes in governance, administrative structure or adopted policy that result in the creation of consolidated school administrative units, broad-based purchasing alliances, enhanced regional delivery of educational services or collaborative school-municipal service delivery or service support systems;

B. Pursuant to criteria established in accordance with this section, a school administrative unit or municipality may apply to the commissioner for a distribution from the fund during the period beginning with the start of fiscal year 2005-06 and ending prior to the end of fiscal year 2008-09; and

C. Pursuant to criteria established in accordance with this section, the commissioner may authorize distributions from the fund in the form of competitive and planning grants.

review and analysis, for each school administrative unit, of the implications of this proposed cost-sharing mechanism on the member municipalities of these school administrative districts and community school districts. The Department of Education shall assist the member municipalities of these school districts in developing transition plans that include a phase-in to achieve the new method of determining member municipalities' local cost of education in accordance with Title 20-A, section 15688, subsection 2 no later than fiscal year 2008-09. The commissioner shall develop provisionally adopted rules that establish the qualifications for the adjustment for isolated small schools in accordance with Title 20-A, section 15687 no later than December 2, 2005 so that the Legislature may consider these criteria during the Second Regular Session of the 122nd Legislature.

Sec. D-71. Transition adjustment for fiscal year 2006-07.
