

Making Learning Accessible in all Parts of Maine...

Best Practices in HIV Prevention Education Curriculum Implementation Training—A Decade of Excellence

Changed from 2 full days to 1 day + webinars

Announcing a new training opportunity

delivered right to your classroom! This is the same high-quality training in HIV prevention curriculum you expect from our program, now offered conveniently in a combined series of three webinars and one 1-day training.

Who should attend? This training is designed for high-school level health educators. Whether you are new to the program or already using Best Practices, you are encouraged to attend!

What is this training about? This training provides educators with a combination of information and skills to effectively deliver the Best Practices curriculum, which covers pregnancy, STIs and HIV prevention.

- The curriculum is researched, evidence-based and proven to work with adolescents!
- All material has been updated.
- At the end of the training, participants will improve the skills, knowledge, and attitude necessary to implement evidence-based sexuality education curricula.
- See [fact sheet](#) for more details.

Participants will earn 15 contact hours or 1.5 CEUs from the Maine Department of Education upon completion of the entire course. Webinars will be archived for later viewing for individuals with scheduling conflicts.

Dates: Nov 14, 28, and Dec 12, 2012 (webinar series)*

Time: 3:00-4:00 p.m.

Cost: \$25 (scholarships available)

Trainers: Jean Zimmerman, Maine Department of Education

Victoria Preston and Christine Letcher, Family Planning Association of Maine

Register: Sign up [HERE](#) today!

FMI: hiv.doe@maine.gov, 624-6692, or visit us on the web at www.maine.gov/education/hiv

**Jan, 2013: 1-day training, day/location to be determined*
