10. New Business, Continued
   a. ASMI Assessment Work Group – Discussion on Recommendations in Report – Presented by Shaun St. Germain
      i. Recommendation #1 – No action to be taken at this time.
      ii. Recommendation #2 – Yes, we would wish to adopt an annual plan. A day should be set aside to create the plan using a facilitator. Who are the stakeholders in this plan? Maine EMS Board, MDPB, Regional Offices, etc.
      iii. Recommendation #3 – Possibly looking into satellite offices, requiring set deliverables of the regional offices. Issues with staffing and funding to do so.
      iv. Recommendation #5 – Changes should be made with deliberation and caution.
   v. Discussion on the overarching plan for EMS. We need to look long-term with Regional Contracts. Let’s look into the contract deliverables and language for the FY18 contract. Is it even possible to come to a consensus today on even picking top five priorities? The group should be working in between meetings to put forward ideas and tackling the report. What is our state doing differently than others in regards to funding? How can we get additional funding to make the necessary changes? Who really are the best stakeholders for each of these recommendations? Shaun would like a group to at least look toward the second recommendation – “Adoption of State EMS Plan and Goals”. Shaun suggests 2 Board members (chair and co-chair), a staff member, region reps, etc. to form a committee to look at Recommendation 2. Alan Leo would like to see the group be geographically diverse. Joe Kellner and Joe Conley will participate in this group.
   vi. Jeff Rowe asks that the Board review the recommendations and prioritize them to discuss at subsequent meetings.
