

SANDY BOTTOM POND  
Turner Twp., Androscoggin County  
U.S.G.S. Poland, Maine

Fishes

Yellow perch	White sucker
Chain pickerel	Hornpout (bullhead)
Minnows	Pumpkinseed sunfish
Golden shiner	

Physical Characteristics

Area - 25 acres	Temperatures
	Surface - 73°F
Maximum depth - 14 feet	12 feet - 70°F

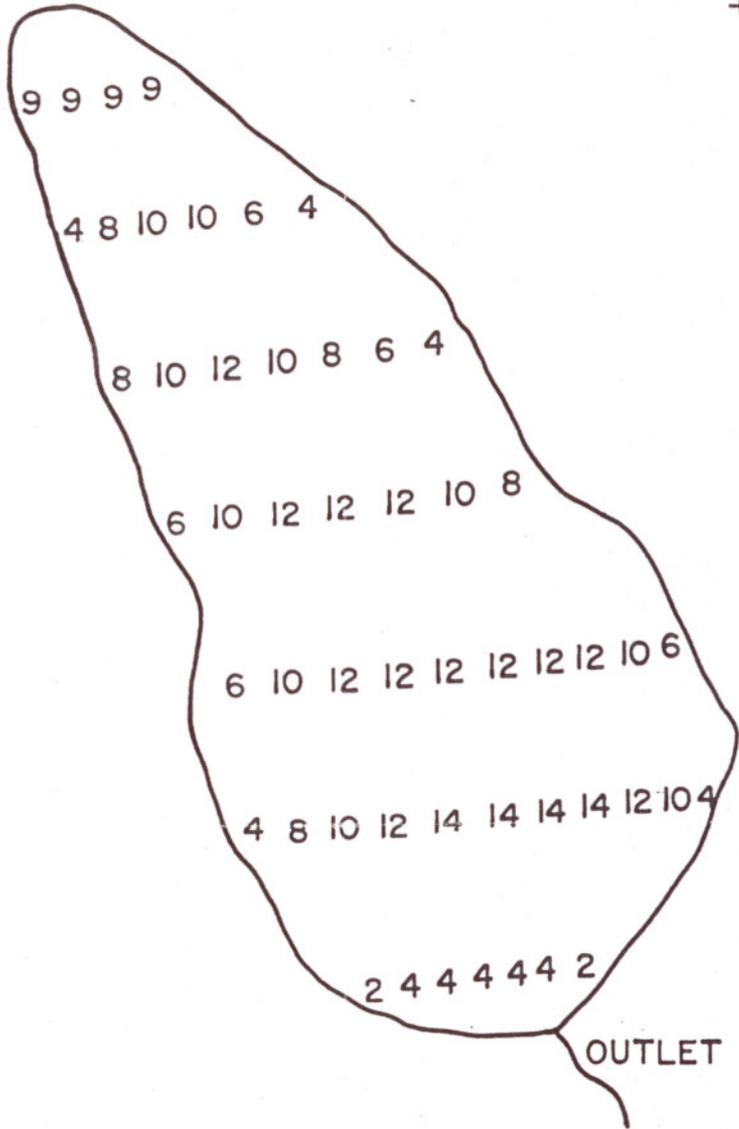

Principal fishery: Chain pickerel

Sandy Bottom Pond is appropriately named. The shores of this small, shallow pond are mostly sand and fine gravel. October fishing for warmwater fish is permitted at Sandy Bottom Pond, and the abundant pickerel population should provide good autumn fishing. The pond is also open to ice fishing.

The presence of suitable habitat for largemouth bass may warrant the introduction of this species when sufficient local interest is expressed.

Surveyed - August, 1961  
(Revised, 1989)
