# LITTLE LABRADOR POND

Sumner Twp., Cumberland Co.  
U.S.G.S. Worthley Pond, Me. (7.5')

## Fishes

Chain pickerel  
Minnows  
Golden shiner

White sucker  
Hornpout (bullhead)  
Pumpkinseed sunfish

## Physical Characteristics

Area - 15 acres

Maximum depth - 17 feet

Temperatures:

Surface - 77°F

17 feet - 53°F

Principal fisheries: Chain pickerel

Little Labrador Pond is a small, shallow weedy pond, which flows into Big Labrador Pond. An oxygen deficiency below 5 feet, and a large population of competitors such as pickerel and suckers preclude the management of coldwater fish species such as brook trout.

There is no public access to Little Labrador Pond Carry in access is limited to permissive trespass off the Valley Road.

Surveyed - September 1956
