Principal fishery: Brook trout

Dutton Pond is located north of Tufts and Grindstone Ponds. The inlet to the pond enters at the northeast end of the pond. The outlet, Reed Brook, flows west into the Carrabassett River. There is one camp on the shoreline.

The water quality of Dutton Pond is good for coldwater species. Spawning habitat is available for brook trout in the inlet. Brook trout are also stocked annually to maintain a fishery in this heavily fished pond.

Dutton Pond is reached from a side road off the Tufts Pond Road. The pond is open to fly fishing only.
