ROCK POND

CHAIN OF PONDS PLT.,
FRANKLIN CO., MAINE
AREA 26 ACRES

ROCK POND

Chain of Ponds Twp., Franklin County
U.S.G.S. Northwest Pond, Maine (7½')

Fishes

Brook trout

Minnnows
Lake chub

Physical Characteristics

Area - 26 acres

Maximum depth - 6 feet

Principal fishery: Brook trout

Temperatures:

Surface - 67°F

5 feet - 64°F

Rock Pond is located west of Snow Mountain. The pond has no major inlets, but an outlet flows south into nearby Big Island Pond. The pond's shoreline is undeveloped.

Water quality in Rock Pond is good for coldwater gamefish. Despite the pond's shallow character water temperatures stay cool throughout the summer. The native brook trout population provides a fishery with good growth due to the low number of competing species. The pond is not stocked.

Rock Pond is accessible via private gated roads west of Route 27. The pond is open to fly fishing only in the summer months and closed to fishing in the winter. See the lawbook for additional regulations.

Surveyed - August, 1950

Resurveyed - 1997

(Revised - 1987, 1998)
