

MEETINGHOUSE POND
Phippsburg Twp., Sagadahoc Co.
U.S.G.S. Bath, Me.

Fishes

Brown trout	Minnows
Yellow perch	Golden shiner
Eel	

Physical Characteristics

Area - 4 acres	Temperatures
	Surface - 76° F.
Maximum depth - 20 feet	20 feet - 50° F.

Suggested Management

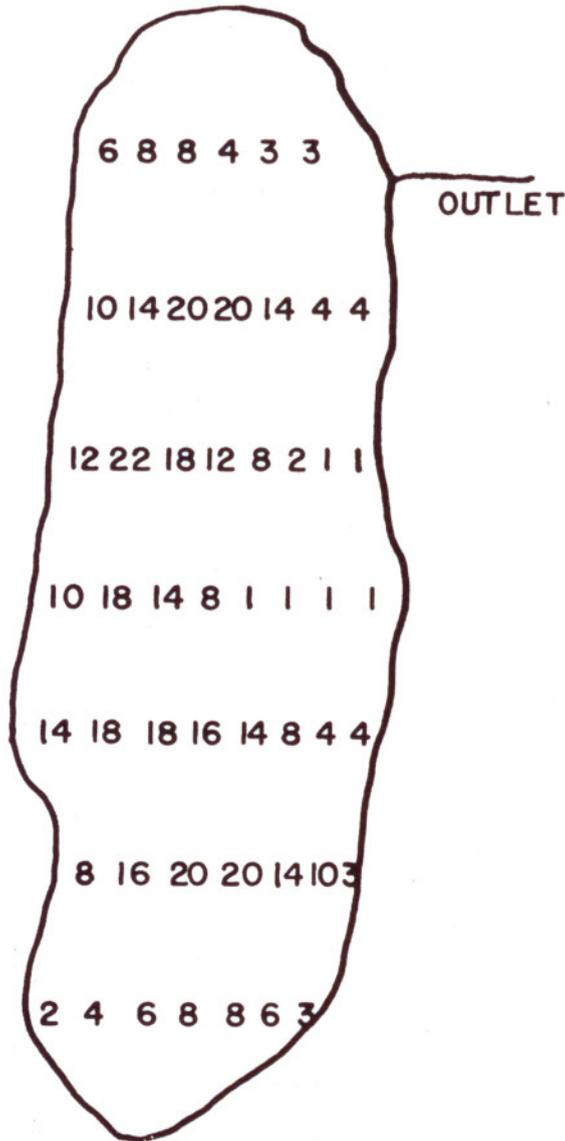

Past stockings of brown trout in Meetinghouse Pond have given anglers only fair trout fishing. Competition from other fishes and an oxygen deficiency at depths below 10 feet seriously handicap the successful establishment of trout in this pond.

In view of the above information it is recommended that the stocking of brown trout in Meetinghouse Pond be discontinued.

No stocking of any species is recommended.
