

BRADFORD POND  
Moro Plt., Aroostook County  
U.S.G.S. Green Mountain, Me. (7 1/2')

FISHES

Brook trout                      Redbelly dace  
Minnows                          American eel  
Golden shiner

Physical Characteristics

Area - 14 acres                      Temperatures  
    Surface - 65°F  
Maximum depth - 4 feet              4 feet - 65°F

Principal fishery: Brook trout

Bradford Pond is very shallow with equal water temperatures at all depths throughout the summer. A small trout population persists through natural reproduction in spite of limiting water quality and competition.

Surveyed - August, 1958  
(Revised - 1994)
