

MIDAS # 3584
ROUND POND
E TWP, FRANKLIN CO, MAINE

ROUND POND

Township E, Franklin County
U.S.G.S. Houghton, Maine (7½')

Fishes

Brook trout

Physical Characteristics

Area - 42 acres

Maximum depth - 8 feet

Principal fisheries: Brook trout

Temperatures:

Surface - 75°F

6 feet - 75°F

Round Pond is located south of Long Pond in the Four Ponds Area. The pond has no major inlets, but a short outlet flows north into Long Pond. The pond's shoreline is lightly developed.

Water quality in Round Pond is marginal for coldwater gamefish. The pond is shallow and becomes warm during the summer months, forcing trout into areas with springs. Brook trout are stocked annually due to the lack of suitable spawning and nursery habitat. Without competing fish species present, trout growth is good.

Round Pond is accessible via gravel logging roads and foot trails east of Route 17. The pond is open to fly fishing only during the summer months and closed to fishing in the winter. See the lawbook for additional regulations.

Surveyed - July, 1959
