EAST CARRY POND

Carrying Place Town Twp., Somerset County
U.S.G.S. East Carry Pond, Maine (7½')

Fishes

Brook trout
Rainbow smelt

Minnows
Golden shiner

Physical Characteristics

Area - 267 acres

Maximum depth - 30 feet

Principal fishery: Brook trout

Temperatures:

Surface - 74°F

30 feet - 55°F

East Carry Pond is located south of Bates Ridge. The pond has no major inlets, but its outlet, Carrying Place Stream, leaves the north end and flows southeast into the Kennebec River. The shoreline is lightly developed.

Water quality in East Carry Pond is good for coldwater gamefish. A self-sustaining brook trout population provides a fishery. Trout growth is good with larger fish utilizing smelts as forage. The pond is not stocked.

East Carry Pond is reached via gated gravel logging and private roads north of Pleasant Ridge Plt. The pond is open to fishing with artificial lures only in the summer and closed to fishing in the winter months. See the lawbook for additional regulations.

Surveyed - August, 1959

Resurveyed - 1973, 1998
