

MIDAS # 4834

LAWRY POND

SEARSMONT TWP.,
WALDO CO., MAINE

AREA 102 ACRES

LAWRY POND

Searsmont Twp., Waldo County
U.S.G.S. Searsmont, Maine

Fishes

White perch
Yellow perch
Chain pickerel
White sucker

Hornpout (bullhead)
Pumpkinseed sunfish
American eel

Physical Characteristics

Area - 83 acres

Maximum depth - 17 feet

Principal fisheries: Chain pickerel, white perch

Temperatures:

Surface - 79⁰F

15 feet - 75⁰F

Lawry Pond is a relatively small, picturesque, somewhat undeveloped pond, and is best suited for warm water fishery management. Winter fishing is popular by local anglers for both pickerel and white perch.

Lawry Pond appears to have ideal habitat for largemouth bass. Largemouth bass could be stocked by the Fisheries and Wildlife Department, from a disease free source, if enough interest was expressed by residence of the area.

Surveyed - August, 1947

Revised - 1954, 1998
