# DOLES POND

Limington Twp., York Co., Me.  
U.S.G.S. Limington, Me., (7.5')

## Fishes

Chain pickerel  
Hornpout (bullhead)

Black crappie

## Physical Characteristics

Area - 25 acres

Maximum depth - 9 feet

Temperatures:

Surface - 72°F

13 feet - 62°F

Principal fisheries: Black crappie and chain pickerel

Doles Pond is a small shallow pond surrounded by wetlands. The dark tea stained water is very acidic and until recently supported populations of only pickerel and hornpout. Black crappie have recently been illegally introduced and are providing an additional angling opportunity. This pond is open to ice fishing and provides anglers with an opportunity for pickerel and crappie fishing in a remote setting.

Walk in access is available across private property with landowner permission.

Surveyed - August, 1972
