Subject: **Standish**  
Federal Project No: BR-1510(700)X  
State Pin No's: 015107.00  
**Amendment No. 1**

Dear Sir/Ms:

Make the follow changes to the Bid Documents.

In the Bid Book, after page 43, **ADD** the attached, "SPECIAL PROVISION, SECTION 107, TIME, (Supplemental Liquidated damages for Fabrication Time), 1 page dated February 23, 2010.

In the Plans, SHEET NUMBER 11 OF 45, PROFILE, **CHANGE** the item number for "2" Erosion Control Mix" from (Item 617.381) to read (Item **619.1401**). Make this change in pen and ink.

Consider these changes prior to submitting your bid on March 10, 2010.

Sincerely,

*FOR* Scott Bickford  
Contracts & Specifications Engineer

PRINTED ON RECYCLED PAPER

**SPECIAL PROVISION****SECTION 107****TIME**

(Supplemental Liquidated Damages for Fabrication Time)

**107.8.1 Fabrication Time.**

The Department has budgeted for the following amounts of continuous full time fabrication/shop inspection for certain Work components:

<u>Element</u>	<u>Time</u>	<u>Supplemental LD</u>
1) Structural Steel	14 calendar days	\$500 per calendar day
2) Precast Deck Panels	7 calendar days	\$500 per calendar day
3) MSE Wall	98 calendar days	\$500 per calendar day

The Contractor is responsible for requiring their fabricators and suppliers to produce these products for the Work continuously until finished, including any needed actions to correct unacceptable workmanship or materials. If the Department determines that shop inspection beyond these times is required, then the corresponding Supplemental Liquidated Damages will be deducted as they occur from the amounts otherwise due the Contractor. The Contractor will be notified by the Department when these times begin and when the allotted time will expire.

If a fabricator or supplier works more than one shift per day and the Department determines that inspection is required for each shift, each shift will count as a calendar day and the LD rate will be the noted amount per shift per calendar day in lieu of per calendar day.

Inspection is required for the following activities:

For metal fabrication work – welding, including tack welding, heat correcting, non-destructive examination, assembly verification.

For concrete work – tensioning of strands, batching and casting of concrete, breaking of test cylinders, de-tensioning.
