**Amendment No. 2**

Dear Sir/Ms:

The following question has been received:

**Question:** Reference Item 606.231 – 94 lf 15' radius and less, Type 3C and Item 606.59 94 lf 15' radius and less, type 3. Is there only suppose to be 94 lf radius and is it to be double nested? Item 606.275 a TE DBL rail? Do you want the whole job double nested not 2 sided double rail?

**Response:** Yes, all of the guardrail on the project is to be installed with nested beams. There is no single pay item to pay for nested radiused guardrail. As has been done in the past, the radiused guardrail, complete with the first rail, posts and hardware, is paid under Pay Item No. 606.231, and the second nested rail beams are paid for under the beam only Pay Item No. 606.59. The pay items for the bridge mounted guardrail and the terminal end are pay items for nested rails.

Consider this information prior to submitting your bid on March 2, 2011.

Sincerely,

A handwritten signature in black ink, appearing to read 'Scott Bickford'.
