GUARDRAIL SERVICES								
SCHEDULE OF BID ITEMS								
BID PAGE - 2 of 5								
Region # 1								
When practical the department will direct that existing damaged guardrail be repaired by installing new guardrail components								
The repair will be accomplished by the contractor as directed by the Maine Department of Transportation.								
The Contractor's price shall include supplying the new guardrail components, removing damaged components, installing the new components and disposing of the damaged components.								
All screws, nails, nuts, bolts and washers are incidental to the work.								
Radius beam shall be paid for as regular straight beam.								
The Contractor will be paid by the hour for mobilization (as quoted on page 1 of 5) for traveling to and from the job site each day.								
MDOT will provide all signs and traffic control.

SCHEDULE OF BID ITEMS								
BID PAGE - 2 OF 5								
Region # 2								
When practical the department will direct that existing damaged guardrail be repaired by installing new guardrail components .								
The repair will be accomplished by the contractor as directed by the Maine Department of Transportation.								
The Contractor's price shall include supplying the new guardrail components, removing damaged components, installing the new components and disposing of the damaged components.								
All screws, nails, nuts, bolts and washers are incidental to the work.								
Radius beam shall be paid for as regular straight beam.								
The Contractor will be paid by the hour for mobilization (as quoted on page 1 of 5) for traveling to and from the job site each day.								
MDOT will provide all signs and traffic control.

GUARDRAIL SERVICES								
SCHEDULE OF BID ITEMS								
BID PAGE - 3 OF 5								
Region # 3								
When practical the department will direct that existing damaged guardrail be repaired by installing new or used Maine DOT owned guardrail components.								
The repair will be accomplished by the contractor as directed by the Maine Department of Transportation.								
The Contractors price shall include supplying labor and equipment to load guardrail components, removing damaged components, installing the new or used components and disposing of the damaged components.								
All screws, nails, nuts, bolts and washers are incidental to the work.								
Radius beam shall be paid for as regular straight beam.								
The Contractor will be paid by the hour for mobilization (as quoted on page 1 of 5) for traveling to and from the job site each day.								
MDOT will provide all signs and traffic control.

GUARDRAIL SERVICES								
SCHEDULE OF BID ITEMS								
BID PAGE - 3 OF 5								
Region # 4								
When practical the department will direct that existing damaged guardrail be repaired by installing new or used Maine DOT owned guardrail components.								
The repair will be accomplished by the contractor as directed by the Maine Department of Transportation.								
The Contractors price shall include supplying labor and equipment to load guardrail components, removing damaged components, installing the new or used components and disposing of the damaged components.								
All screws, nails, nuts, bolts and washers are incidental to the work.								
Radius beam shall be paid for as regular straight beam.								
The Contractor will be paid by the hour for mobilization (as quoted on page 1 of 5) for traveling to and from the job site each day.								
MDOT will provide all signs and traffic control.

GUARDRAIL SERVICES								
SCHEDULE OF BID ITEMS								
BID PAGE - 5 OF 5								
Region # 5								
When practical the department will direct that existing damaged guardrail be repaired by installing new or used Maine DOT owned guardrail components.								
The repair will be accomplished by the contractor as directed by the Maine Department of Transportation.								
The Contractors price shall include supplying labor and equipment to load guardrail components, removing damaged components, installing the new or used components and disposing of the damaged components.								
All screws, nails, nuts, bolts and washers are incidental to the work.								
The Contractor will be paid by the hour for mobilization (as quoted on page 1 of 5) for traveling to and from the job site each day.								
MDOT will provide all signs and traffic control.
