

NOTICE OF FAILING MATERIALS

PIN

Date 4/14/2010

To:

Dear _____,

This letter is to inform you that a sieve analysis test has been performed on the following material: _____ at _____. The results of this test indicate that the material does not comply with specification requirements.

In accordance with Section 106.8.2 of the Standard Specifications, you are hereby directed to perform the following:

- Provide a written plan of corrective action.
- Remove and replace with acceptable material.
- Employ whatever methods you deem appropriate to attain the required density.
- Suspend operations on this item until authorized in writing by the undersigned to resume.
