CROSSWALKS & SIDEWALKS

A breakfast session on how to improve pedestrian safety and comply with ADA rules

WHO SHOULD ATTEND
- Town/City Managers
- Public Works Directors
- Selectmen
- Road Commissioners
- Road Foremen

This program is directed at municipal officials and employees who need to be aware of proper crosswalk locating, ADA (disabilities) compliance with sidewalks, and how to improve pedestrian safety.

WHAT WILL BE COVERED
- Proper crosswalk locating
- Crosswalk signing, striping & lighting
- Making crosswalks safer;
- Making sidewalks ADA-compliant
- Sidewalk maintenance
- Sidewalk funding options
- School crossings

All attendees will be eligible for a FREE $5,000 set of “rapid rectangular flashing beacons”
40 pairs to be given away statewide and 1 pair per eligible town!
AGENDA
7:00 am  Breakfast
7:45 am  Program Begins
NOON   Adjourn
See “What Will be Covered” for program details.

CROSSWALK & SIDEWALK BREAKFAST
FLASHING BEACON APPLICATION
For 1 free pair of flashing beacons per eligible town. These solar-powered units should be at an existing, unsignalized, valid intersection or midblock crosswalk that is already ADA-compliant.

Municipality’s Proposed location:
__________________________________________________________________________________________
__________________________________________________________________________________________
Give 2 strong reasons WHY this is a great location:
1. _______________________________________________________________________________________
__________________________________________________________________________________________
2. _______________________________________________________________________________________
__________________________________________________________________________________________
When delivered this summer, do you have the ability to install them this year?
☐ YES   ☐ NO
