Are your service techs...

- Performing the same brake repairs the same way for years?
- Costing you time and money with the changing of technology?
- Unaware of new brake systems on the market today?

If you answered YES to any of these questions, you need to send your technician to our next seminar series.

This three-part series is broken down into the following topics: Air Systems, Air Foundation, and Air Brake ABS & Disc Brakes. Your technician will learn how brake systems are support to work, how to diagnose issues and prevent costly repairs.
