

MaineDOT 2017 Construction Advertisement Plan

Last revised: 1/3/2017

This is MaineDOT's bid advertisement plan for capital projects to be advertised during the 2017 calendar year.

MaineDOT intends to publish this plan annually in January. It appears below sorted by Work Type and Planned Advertise Date. Once posted online, this document will provide a static snapshot of MaineDOT's original plan, except as noted below.

In years in which major funding components of MaineDOT's capital program are being debated, partial plans or mid-year alterations may be required. Such years could include odd numbered years during which state budgets and bonding levels are typically decided, and years in which federal transportation authorization bills are pending.

This Plan is to be distinguished from the [Current Construction Advertisement Schedule](#), which is a separate dynamic document updated online each Monday. The current schedule will reflect changes caused by such factors as cash flow, bid prices, local and public input, and design and permitting.
