

# MLTI Student Screensaver Artwork Submission Guidelines

## Submitted artworks may be:

- Photography
- Scanned works
- Digital art
- Photographs of artwork (2 or 3 dimensional). If submitting photographed artwork, please read the guidelines we've provided below.
- Due to the paperwork involved with identifiable human faces we will not allow any piece which will require model release forms. This means no photographs of recognizable human faces, please.

## Submissions must be:

- Labeled properly so we can easily find you. We will contact the teacher who in turn will let you know if you were selected.
  - Title of Artwork\_StudentFirstInitial\_StudentLastName\_School\_Teacher Initials
- Landscape orientation
- Digital format 1152x870 pixels
- Without images of people (which would require a model release)
- Submitted by December 17, 2012
- One submission per student

## Helpful Hints:

- Scan all 2D work (other than actual photographs)
  - Ensure your scanned document is the proper size (1152 x 870 pixels at 72 ppi).
  - If a scanner isn't available and a photograph is being made of a 2D piece, make sure the photograph isn't blurry by placing the camera on a solid surface (or holding it steadily), and avoiding using camera flash to illuminate the picture.
- Photograph 3D pieces
  - Be sure the photograph is sharp and evenly lit.
  - Use a very light, neutral background
  - Do your best to focus on the object clearly.

## Submission checklist:

- Is your artwork labeled properly?
- Is your artwork sized properly?
- Make sure you pick your favorite to submit! Only one submission per student.
- Studywiz account? If you don't have one, ask your teacher to submit your photo or how to get an account.
- Once you submit, make sure you let people know you need votes!

To view the photographs you need to have a Studywiz (<http://studywiz.mlti.org/>) account. If you do not have an account please contact your MLTI Tech Lead or Juanita Dickson ([juanita.dickson@maine.gov](mailto:juanita.dickson@maine.gov)) to get account information.

## How to Submit
