

MLTI II Buyout - 2008 MacBook Software Licensing Information

For schools wishing to purchase their MLTI devices, the following describes the licensing status of the software that is included in the purchase.

With only a few exceptions, the titles included in the current MLTI 2008 image are licensed in perpetuity to the purchasing SAU. This includes the Macintosh operating system software version 10.5.2 and applications like AppleWorks, iMovie, iPhoto, and iTunes. A complete list of titles and software notes follow. Many titles are available in newer versions from their manufacturers than exist on the MLTI 2008 image at no cost. Paid upgrades to these newer versions are not included in the purchase of the MLTI device and are the responsibility of the SAU.

Licensing for the following titles is granted to the purchasing SAU with the following conditions (see Software Notes):

Software Title	Notes	Software Title	Notes
Address Book	1	iCal	1
Adobe Reader 8	1	iChat	1
AppleScript	1	iDVD	1
AppleWorks (US English)	1	iMovie 06	1

Gimp	1	Stickies	1
Google Earth	1	TextEdit	1
Google SketchUp 6	3	Time Machine	1

Software Notes:

- 1 Licensed to schools
- 2 Licensed as shareware. These titles are freely distributed by their manufacturers. Some functionality is limited. SAU's may purchase full licenses for full functionality.
- 3 Licenses are expiring at the end of this year. New SketchUp Pro license codes can be obtained through DOE and will be posted in the TC Collaboration and Resources group in Studywiz.
