

Brick: Job Scheduler
Domain: Commodity Applications
Effective Date: July 15, 2013

Current

+ Two Years

1. Baseline Technology (Approved & supported for current usage.)

- CA Workload Automation v11.x*
- Oracle DBMS Scheduler v11.x
- Unix Cron**
- Windows Task Scheduler v2.x
- Windows SQL Server Agent 2008R2

2. Mainstream Targets (Primary candidates for future deployment, subject to further review and acceptance by the CIO.)

- Descendants of baseline technology

3. Retirement Targets (Exit ASAP.)

- Operations
- Predecessors of the Baseline Technology, no longer supported by their vendors

4. Containment Targets (Current usage approved. No further proliferation. Long-term exit plan. For waiver, follow Waiver Policy.)

- Cybermation – All except as noted
- Cybermation – D Series Unix
- ESP – v5.x
- ESP – Espresso – all versions
- Oracle DBMS_Jobs (Oracle has announced this will be deprecated)
- Predecessors of the Baseline Technology, still supported by their vendors

5. Notes:

- **Jobs do not run under Admin Accounts or reside on database or middleware shared servers.
- *RAC or Fusion middleware environments use CA Workload Automation as the standard scheduler.
