Accounting Practices

This statement has been completed in accordance with NAIC Accounting Practices and Procedures Manual except to the extent that state law differs. The Company has no current practices that differ between state law and NAIC practices and procedures.

Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

Accounting Policy

In addition, the Company uses the following accounting policies:

Such liabilities are necessarily based on assumptions and estimates and while management believes the amount is adequate, the ultimate liability may be in excess or less than the amount provided. The methods for making such estimates and for establishing the resulting liability are continually reviewed and any adjustments are reflected in the period determined.
- (12) The Company has not modified its capitalization policy from the prior period.
- (13) Pharmaceutical rebate receivables are calculated by using the bid projection for the first portion of the year until more information has been provided by the pharmacy benefits manager, at which time the historical rate is used to calculate the receivable.
