RE: Rural Medical Access Program assessment for fiscal year July 1, 2023 – June 30, 2024

Dear Physician,

The Rural Medical Access Program (“RMAP”) was created to promote prenatal services in underserved, rural areas of the state of Maine by providing medical malpractice premium assistance to medical professionals who provide those services. Per Title 24-A M.R.S. §6302, the RMAP is funded through assessments on the medical malpractice premiums of physicians practicing in Maine, Maine hospitals, and Maine-practicing physicians’ employers.

Many insurance companies collect the yearly assessment as part of the billed medical malpractice premiums. An insurance company has not reported that they have collected your RMAP assessment. Because we have not received your RMAP assessment, it appears that you were either self-insured, insured through an unauthorized insurer, or insured through a risk retention group, and thus are considered self-insured, receive medical malpractice liability protection through the Federal Tort Claims Act, or completely ceased practicing medicine in Maine in the fiscal year ending June 30, 2024.

Please complete the enclosed assessment form and remit any assessments due by August 1, 2025. If you are not required to pay the assessment, simply indicate so on the enclosed assessment form.

We recognize that we are late in sending the notice this year. You should expect to receive another notice in late 2025 for the June 30, 2025 fiscal year.

Per Title 24-A, M.R.S. §6304(2), failure to support the RMAP may result in civil action and fines up to \$2,000.

If you have questions or concerns related to the assessment fee, the assessment form or filing exemptions, please contact Bree Sprague at m.bree.sprague@maine.gov.

Please note that we cannot accept phone calls as a response to this request. All responses must be in writing.

Sincerely,

Bree Sprague
