B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policies

Expenses incurred in connection with acquiring new insurance business, including acquisition costs such as sales commissions, are charged to operations as incurred. Premiums paid by subscribers prior to the effective date are recorded on the balance sheet as advance premiums and subsequently credited to income as earned during the coverage period.

In addition, the Company uses the following accounting policies:

1. Short-term money market mutual funds are stated at market value and short-term bonds are stated at amortized cost.
2. Bonds are stated at amortized cost.
3. Common stocks are stated at market value.
4. The Company does not have any preferred stock.
5. The Company does not have any mortgage loans.
6. The Company's loan-backed securities are carried at amortized cost. The Company reports the adjustment methodology on an account basis as opposed to each individual security and accounts for all of the securities on a retrospective basis.
7. The Company does not have any investments in subsidiaries, controlled or affiliated companies.
8. The Company does not have investments in joint ventures, partnerships or limited liability companies.
9. The Company does not have any derivative instruments.
10. The Company does not include anticipated investment income in calculating a premium deficiency.
11. The Company's reported unpaid claims are based on actuarial estimates. The claims adjustment expenses are estimated at approximately 2% of unpaid claims. Liabilities for unpaid claims and claims adjustment expense are based on assumptions and estimates and while management believes such estimates are reasonable, the ultimate liability may be in excess of or less than the amount provided.
12. The Company does not have any capital assets and therefore no capitalization policy.
13. The Company records pharmaceutical rebates receivable as a non-admitted asset.

1. For fixed-rate agency mortgage-backed securities, the Company calculates prepayment speeds utilizing Mortgage Industry Advisory Corporation (MIAC) Mortgage Industry Medians (MIMs). MIMs are derived from a semi-monthly dealer-consensus survey of long-term prepayment projections. For other mortgage-backed, loan-backed, and structured securities, the Company utilizes prepayment assumptions from Moody's Analytics. Moody's applies a flat economic credit model and utilizes a vector of multiple monthly speeds as opposed to a single speed for more robust projections. In instances where Moody's projections are not available, the Company uses data from Reuters, which utilizes the median prepayment speed from contributors' models.
