4. EXTENSIONS FOR FILING:

The assessor may grant a reasonable extension of time for filing a return, for just cause. No extension will be granted unless a deposit, of not less than 100% of the estimated tax, is made on or before the original due date. Negligence penalties may be added for insufficient deposits. Form 7004-ME., Application for Extension of Time for Filing Return, is available from this office and should be used when requesting extensions.

5. PAYMENT OF CORPORATE INCOME OR FRANCHISE TAX:

All taxable corporations are required to make a declaration of estimated tax if its Maine taxable income can reasonably be expected to exceed \$800 for that taxable year. As far as practical, forms will be mailed directly to taxpayers. However, if you do not receive forms through the mail, they are available upon request from the Bureau of Taxation, Income Tax Section, State Office Building, Augusta, Maine 04333.

6. INTEREST: Interest will be added to any balance of tax due, at the rate of 6% per year from the original due date to the date of filing, and should be included with any payments.

7. PENALTIES: A 5% penalty may be applied to any tax due at the time of filing, if the payment deposited with the application for extension of time to file (Form 7004-ME.) and estimated tax payments (Form 1120-ES-ME.) are not equal to:

- a. Previous year's Maine Corporate income tax liability, or
- b. at least 80% of the tax found to be due at time of filing of Maine Corporate Income Tax Return.

8. PERIOD COVERED BY RETURN: Your return will cover the same period as Federal Form 1120.

9. ACCOUNTING METHODS: A taxpayer's method of accounting for Maine Income Tax purposes must be the same as his method of accounting for Federal Income Tax purposes.

Any taxpayer filing an amended Federal Income Tax Return must, within 90 days, file an amended Maine Income Tax Return. When filing returns that reflect Federal net operating losses, a copy of the Federal Form 1139 must be attached.

12. CONSOLIDATED RETURNS: Affiliated corporations will be permitted or required to file a consolidated return only if the assessor deems such a return necessary to fairly determine net income. Permission to file a consolidated return will not be granted to effect a tax savings.

regulation is reproduced in the Maine Income Tax Law booklet, and is available upon request.

PART III—FORM 1120-ME.—SCHEDULE A, PAGE 2

GENERAL INSTRUCTIONS: Schedule A is provided for corporations engaged in inter-state business. **A corporation whose income was derived solely from a trade, business or activity conducted entirely within Maine during the taxable year should not complete Schedule A.** If the allocation and apportionment provisions do not fairly represent the extent of the taxpayer's business activity in this State, the taxpayer may petition for, or the tax assessor may require, in respect to all or any part of the taxpayer's business activity, if reasonable:

- (a) Separate accounting.
- (b) The exclusion of any one or more of the factors.
- (c) The inclusion of one or more additional factors which will fairly represent the taxpayer's business activity in this State.
- (d) The employment of any other method to effectuate an equitable allocation and apportionment of the taxpayer's income.

Maine employs a three-factor formula to determine the per-

centage of corporate business income which is apportioned to, and taxed, by Maine. This percentage is derived by a fraction, the numerator of which is the property factor plus the payroll factor plus the sales factor, and the denominator of which is 3, or the number of factors used in column 2, whichever is less.

"Tax period," referred to in instructions for Lines 2, 4 and 7, means the period represented by adjusted Federal taxable income on Line 6, page 1.

"Sales" means all gross receipts not allocated.

Line 2. SALES FACTOR: The sales factor is a fraction, the numerator of which is the total sales of the taxpayer in this State during the tax period, and the denominator of which is the total sales of the taxpayer everywhere during the tax period. For the definition of "sales" for Maine Corporate income tax purposes, please refer to Regulation #1, section 15(A).

Sales of tangible personal property are in this State, (1) if the property is delivered or shipped to a purchaser, other than the United States Government, within this State, regardless of the F.O.B. point or other conditions of the sale; or (2) the property is shipped from an office, store, warehouse, factory or other place of storage in this State and the purchaser is the United States Government or the taxpayer is not taxable in the State of the purchaser.

Sales, other than sales of tangible personal property, are in this State, if (1) the income producing activity is performed in this State; or (2) the income producing activity is performed both in and outside this State and a greater proportion of the income producing activity is performed in this State than in any other state, based on costs of performance.

Line 4. PAYROLL FACTOR: The payroll factor is a fraction, the numerator of which is the total amount paid in this State during the tax period by the taxpayer for compensation, and the denominator of which is the total compensation paid everywhere during the tax period. "Compensation" means wages, salaries, commissions and any other form of remuneration paid to employees for personal services. Compensation is paid in this State, (1) if the individual's service is performed entirely within this State; or (2) the individual's service is performed both within and without the State, but the service performed without the State is incidental to the individual's service within the State; or (3) some of the service is performed in the State and the base of operations or, if there is no base of operations, the place from which the service is directed or controlled is in the State, or the base of operations of the place from which the service is directed or controlled is not in any state in which some part of the service is performed, but the individual's residence is in the State.

Line 7. PROPERTY FACTOR: The property factor is a fraction, the numerator of which is the average value of the taxpayer's real and tangible personal property owned or rented and used in this State during the tax period and denominator of which is the average value of all the taxpayer's real and tangible personal property owned or rented and used during the tax period.

Property owned by the taxpayer is valued at original cost. Property rented by the taxpayer is valued at 8 times the net annual rental rate. Net annual rental rate is the annual rental rate paid by the taxpayer less any annual rate received by the taxpayer from subrentals. The average value of property shall be determined by averaging the values at the beginning and ending of the tax period but the tax assessor may require the averaging of monthly values during the tax period if reasonably required to reflect properly the average value of the taxpayer's property.

Line 9. Apportionment factor or percentage, carried out to 4 decimal places, to be applied to business income on Line 12. If number of factors used in column 2 is less than 3, divide Line 8 by number used.

Line 10. Enter adjusted Federal taxable income from page 1, Line 6 of the 1120-ME.

Line 11. Enter on Line 11 all nonbusiness income allocable to Maine or any other state during the tax period. Do not include interest on United States obligations or Foreign dividend gross-up accounted for on page 1, lines 2(a) and 2(b). Nonbusiness Income—Any income, which does not arise from activities in the regular course of trade or business, or which does not arise from property which constitutes an integral part of the taxpayer's trade or business, shall be allocated to Maine to the extent it can reasonably be determined to be derived from sources within Maine.

Line 12. Amount on Line 12 represents business income only, as determined by subtracting nonbusiness income (Line 11) from adjusted Federal taxable income. This is the amount on which the percentage on Line 9 should be applied.

Line 13. Enter here the result of multiplying Line 12 by the percentage on Line 9. This is your business income apportioned to Maine.

Line 14. This line pertains to nonbusiness income directly allocated to the State of Maine during the tax period.

Line 15. This figure represents taxable income apportioned and allocated to Maine and should be entered on Line 7, page 1 of Form 1120-ME.

Lines 16 & 17. Supporting schedules, listing type and/or source of nonbusiness income and related expenses, must be attached to the Maine return. For specific instructions on allocation, please refer to Chapter 821, Section 5211 of the Maine Income Tax Law and Regulation #1, concerning allocation and apportionment of income.
