SUPER RESEARCH AND DEVELOPMENT TAX CREDIT
WORKSHEET INSTRUCTIONS

This credit is available to taxpayers that qualify for the Research Expense Tax Credit (see 36 MRSA § 5219-K) and whose qualified research expenses (as defined by IRC § 41 as of December 31, 1994) exceed the super credit base amount. The super credit base amount is the average research expense for the three taxable years immediately preceding June 12, 1997, increased by 50%. This credit applies only to the amount spent on research conducted in Maine. The credit is equal to the lesser of the excess qualified research expenses over the super credit base amount or 50% of the tax due after all other credits. The credit may not reduce the current year's tax liability to less than the tax liability of the previous year after credits. Any unused credit amount may be carried over for 5 years. Special rules apply to corporations filing a Maine combined return (see 36 MRSA § 5219-L (5) for details).
